

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice: 06–086]

**Notice of Information Collection****AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Notice of information collection.**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3506(c)(2)(A)).**DATES:** All comments should be submitted within 60 calendar days from the date of this publication.**ADDRESSES:** All comments should be addressed to Mr. Walter Kit, National Aeronautics and Space Administration, Washington, DC 20546–0001.**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Mr. Walter Kit, NASA PRA Officer, NASA Headquarters, 300 E Street SW., JE000, Washington, DC 20546, (202) 358–1350, *Walter.Kit-1@nasa.gov*.**SUPPLEMENTARY INFORMATION:****I. Abstract**

The purpose of these information collections is to gather Web site usability data by a combination of complimentary data collection instruments that will be used by Web and product design teams to enhance NASA Web sites and educational products, making them easier to use and more effective for users to access Agency information with the least amount of time, frustration, and effort.

**II. Method of Collection**

Usability data will be gathered using various methods and resources, including but not limited to candidate screening, user observation, focus groups, questionnaires, and in-person interviews by means of questionnaires on Web sites, email attachments, faxes, telephone interviews, and direct person-to-person communication.

**III. Data***Title:* Generic Web Site Usability Information Collections.*OMB Number:* 2700–XXXX.*Type of review:* Generic Collection.*Affected Public:* Individuals or households.*Number of Respondents:* 1800.*Responses Per Respondent:* 1.*Annual Responses:* 600.*Hours Per Response:* 1.5 hours.*Annual Burden Hours:* 900.**IV. Request for Comments**

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

**Gary Cox,***Deputy Chief Information Officer (Acting).*

**BILLING CODE 7510–13–P****NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice (06–085)]

**National Environmental Policy Act; Mars Science Laboratory Mission****AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Notice of availability of final environmental impact statement (FEIS) for implementation of the Mars Science Laboratory (MSL) mission.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500–1508), and NASA policy and procedures (14 CFR Part 1216 subpart 1216.3), NASA has prepared and issued a FEIS for the proposed MSL mission. The FEIS addresses the potential environmental impacts associated with implementing the mission. The purpose of this proposal is to explore the surface of Mars with a mobile science laboratory (hereinafter called the “rover”). This

environmental impact statement (EIS) is a tiered document (Tier 2 EIS) under NASA's Programmatic EIS for the Mars Exploration Program (MEP). The FEIS presents descriptions of the proposed MSL mission, spacecraft, and candidate launch vehicles; an overview of the affected environment at and near the launch site; and the potential environmental consequences associated with the Proposed Action and alternatives, including the No Action Alternative.

The MSL mission is planned for launch during the September–November 2009 time period from Cape Canaveral Air Force Station (CCAFS), Florida, on an expendable launch vehicle. The arrival date at Mars would range from mid-July 2010 to not later than mid-October 2010, depending on the exact launch date and the yet to be determined landing site on the surface of Mars. Using advanced instrumentation, the MSL rover would strive to acquire significant detailed information regarding the habitability of Mars from a scientifically promising location on the surface. The mission would also fulfill NASA's strategic technology goals of increasing the mass of science payloads delivered to the surface of Mars, expanding access to higher and lower latitudes, increasing precision landing capability, and increasing traverse capability (mobility) to distances on the order of several kilometers.

The FEIS evaluates two alternatives in addition to the No Action Alternative. Under the Proposed Action (Alternative 1, NASA's Preferred Alternative), the proposed MSL rover would utilize a radioisotope power system, a Multi-Mission Radioisotope Thermoelectric Generator (MMRTG), as its primary source of electrical power to operate and conduct science on the surface of Mars. Under Alternative 2, an MSL rover would utilize solar energy as its primary source of electrical power to operate and conduct science on the surface of Mars.

**DATES:** NASA will take no final action on the proposed MSL mission on or before December 21, 2006, or 30 days from the date of publication in the **Federal Register** of the U.S. Environmental Protection Agency (EPA) notice of availability of the MSL FEIS, whichever is later.

**ADDRESSES:** The FEIS may be reviewed at the following locations:

(a) NASA Headquarters, Library, Room 1J20, 300 E Street, SW., Washington, DC 20546–0001;

(b) Jet Propulsion Laboratory, Visitors Lobby, Building 249, 4800 Oak Grove Drive, Pasadena, CA 91109.
