I. General Information

A. Does the proposed technical correction apply to me?

Regulated Entities. Categories and entities potentially regulated by the proposed rule are very small municipal waste combustion (VSMWC) units and institutional waste incineration (IWI) units. The final OSWI emission guidelines and NSPS potentially affect the following categories of sources:

Category	NAICS code	Examples of potentially regulated entities
Any State, local, or Tribal government using a VSMWC unit as defined in the regulations.	562213, 92411	Solid waste combustion units burning municipal waste collected from the general public and from residential, commercial, institutional and industrial sources.
Institutions using an IWI unit as defined in the regulations	922, 6111, 623, 7121	Correctional institutions, primary and secondary schools, camps and national parks.
Any Federal government agency using an OSWI unit as defined in the regulations.	928	Department of Defense (labs, military bases, munition facilities).
Any college or university using an OSWI unit as defined in the regulations.	6113, 6112	Universities, colleges and community colleges.

Category	NAICS code	Examples of potentially regulated entities
Any church or convent using an OSWI unit as defined in the regulations.	8131	Churches and convents.
Any civic or religious organization using an OSWI unit as defined in the regulations.	8134	Civic associations and fraternal associations.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by the proposed rule. To determine whether your facility is regulated by the proposed rule, you should examine the applicability criteria in 40 CFR 60.2885 through 60.2888 of subpart EEEE, and in the emission guidelines for existing sources located at 40 CFR 60.2991 through 60.2994 of subpart FFFF. If you have any questions regarding the applicability of the proposed rule to a particular entity, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

What Are the Administrative Requirements for This Action?

For a complete discussion of all the administrative requirements applicable to this action, see the direct final rule in the Rules and Regulations section of this **Federal Register**.

The Regulatory Flexibility Act (RFA) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedures Act or any other statute unless the agency certifies that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small government organizations, and small government jurisdictions.

For purposes of assessing the impacts of today's proposed rule on small entities, small entity is defined as follows:

(1) A small business in the regulated industry that has a gross annual revenue less than \$6 million (this varies by industry category, ranging up to \$10.5 million for North American Industrial Classification System (NAICS) code 562213 (VSMWC)), based on Small Business Administration's size standards;

(2) A small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; or

(3) A small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field.

After considering the economic impact of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This action does not propose any changes to the final OSWI rule, in which we determined that the final rule would not have a significant economic impact on a substantial number of small entities.

For additional information, see the direct final rule published in the Rules and Regulations section of this **Federal Register**.
