

- BOX will use variable rates of “bundling” delays for the three different types of broadcast updates: changes in price, increases in quantity without a change in price, and decreases in quantity without a change in price. Under this proposal, changes in prices may be subject to less delay than changes to quantity at same price. For example, BOX may apply a “bundling interval” of 400 milliseconds to updates regarding a price change while using a figure of 1,000 milliseconds for updates concerning only a change in quantity at the same price. The appropriate mix will be determined by the relative success BOX is meeting in its overall goals of traffic reduction.

The Exchange does not propose to apply the above-described bundling to traffic relating to price improvement auctions or NBBO exposure mechanisms, nor to trade reporting messages. Furthermore, no bundling of quotes is proposed for inbound orders and quotes which are sent to BOX by users; messaging will only be bundled for outbound updates.

The Exchange believes this proposal is an optimal trade-off between costs and benefits and that it is fully compliant with its firm quote obligations. The Exchange further believes that the proposed rule is designed to provide the Exchange with a quote mitigation plan which will significantly reduce overall peak market data traffic with a relatively small impact on the quality of information available to options market users.

- BOX’s target reduction in outbound peak traffic is 15% to 20% of what the traffic would have been had no mitigation been applied.

- Reduction in overall traffic, as opposed to peaks, will be lower, but still significant, with a target of 8% to 10%.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁵ in particular, in that the proposed rule change is designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and practices, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

⁵ 15 U.S.C. 78f(b)(5).

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s Internet comment form <http://www.sec.gov/rules/sro.shtml>; or
- Send an e-mail to rule-comments@sec.gov. Please include File No. SR–BSE–2006–48 on the subject line.

[Release No. 34–54771; File No. SR–CBOE–2006–88]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing of Proposed Rule Change To Codify a Fee Schedule for the Sale of Open and Close Volume Data on CBOE Listed Options by Market Data Express, LLC

November 16, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on November 3, 2006, the Chicago Board Options Exchange, Incorporated (“CBOE” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

⁶ 17 CFR 200.30–3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to codify a fee schedule for the sale of open and close volume data on CBOE listed options by Market Data Express, LLC ("MDX"), a wholly-owned subsidiary of CBOE. The text of the proposed rule change is available on the CBOE's Web site (<http://www.cboe.com>), the Office of the Secretary, CBOE, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CBOE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

CBOE creates volume data for each CBOE listed option that consists of opening buys and opening sells and closing buys and closing sells.³ This opening and closing position data is subdivided by origin code (*i.e.*, customer or firm) and the customer data is further subdivided by order size. The volume data is summarized by day and series (symbol, expiration date, strike price, call or put). This volume data is referred to herein as the "Open/Close Data."

MDX offers the Open/Close Data for sale to CBOE members and non-members. The fees that MDX assesses for the Open/Close Data are set forth in the Price List on MDX's Web site. Members and non-members are charged the same fees for the Open/Close Data.

Under the proposal, customers may purchase Open/Close Data on a subscription basis or by ad hoc request. Daily Open/Close Data covering all CBOE securities would be available for purchase by subscribing to the Daily Update service at a cost of \$600 per

month. Subscribers to the Daily Update service would receive a daily data file via download from MDX's Web site. Historical Open/Close Data covering all CBOE securities may be purchased on an ad hoc request basis and is delivered via DVD. The charge for Historical Open/Close Data covering all CBOE securities would be \$7,200 per year for requests for one to four years of data. Requests for five or more years of Historical Open/Close Data would receive a 50% discount beginning with the fifth year of data (*i.e.*, MDX charges \$7,200 for each of the first four years of data and \$3,600 for year five and each subsequent year of data).

Alternatively, a customer may purchase Historical Open/Close Data on an individual CBOE security at a cost of \$4.50 per security per month. This data would be available via download from MDX's Web site. A 50% discount would be applied for requests for ten or more years of data, beginning with the tenth year of data.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁴ in general, and furthers the objectives of Section 6(b)(4) of the Act,⁵ in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among CBOE members and issuers and other persons using its facilities. The Open/Close Data is summarized and formatted by MDX in such a way that it increases its usability and value. In order to develop the Open/Close Data, MDX had to develop at significant expense a separate and more detailed system than the system MDX uses to generate its options summary data. The Exchange took these development costs into account when setting the proposed fees for the Open/Close Data. The Exchange is not aware of any data product offered by another exchange that is similar to the Open/Close Data product.⁶ While there is no direct comparison to another exchange's product, the Exchange believes the proposed Open/Close Data fees are fair and reasonable in that the fees are less than the fees charged by another exchange for data that is not summarized and formatted in the way the Open/Close Data is.⁷ The Exchange

also believes the proposed MDX fees are consistent with Rule 603 under the Act (*Distribution, Consolidation, and Display of Information with Respect to Quotations for and Transaction in NMS Stocks*)⁸ in that the fees are fair and reasonable and not unreasonably discriminatory. Members and non-members pay the same fees for the Open/Close Data.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- A. By order approve such proposed rule change; or
- B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Proposed Rule Change Regarding
Allocation of Stocks to CBSX DPMs**

November 20, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

(“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 20, 2006, the Chicago Board Options Exchange, Incorporated (“CBOE” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's
Statement of the Terms of Substance of
the Proposed Rule Change**

The Exchange submits this rule change filing to modify its rules relating to the allocation of stocks for the Exchange's proposed stock-trading facility, CBSX. The text of the proposed rule change is set forth below. Additions are in *italics*; deletions are in [brackets].

**RULE 53.54. [Conditions on the
Allocation of Securities to [STOC]
CBSX DPMs**

(a) CBSX [The STOC DPM Committee] may establish [(i) restrictions applicable to all STOC DPMs on the concentration of securities allocable to a single STOC DPM and to affiliated STOC DPMs and (ii) minimum eligibility standards applicable to all [STOC] CBSX DPMs which must be satisfied in order for a [STOC] CBSX DPM to receive allocations of securities, including but not limited to standards relating to adequacy of capital and number of personnel.

(b) *CBSX shall determine, for each security in which CBSX begins trading, which CBSX DPM should be allocated such security. Factors to be considered in making such determinations may include, but are not limited to, any one or more of the following: Performance, volume, capacity, market performance commitments, operational factors, efficiency, competitiveness, expressed preferences of issuers, and the best interest of CBSX. Alternatively, in instances where multiple securities are being allocated at one time, CBSX may allocate such securities utilizing a draft where the draft selection order for the eligible CBSX DPMs is determined randomly by CBSX.*

**II. Self-Regulatory Organization's
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule
Change**

In its filing with the Commission, CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

**A. Self-Regulatory Organization's
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule
Change**
1. Purpose

In September 2006, the Commission approved Exchange Chapters 50-55 governing the trading of non-option securities on the Exchange.³ The Exchange, via a separate rule filing, will be proposing to further modify Chapters 50-55 in connection with the establishment of the CBOE Stock Exchange (“CBSX”). CBSX will be a facility of the Exchange and will serve as the Exchange's vehicle for trading non-option securities. CBSX would be a separate legal entity (a Delaware Limited Liability Company) that is owned by the Exchange and several strategic partners. The Exchange is also submitting rule filings proposing to establish CBSX as a facility of the Exchange and proposing to allow CBSX to appoint CBSX DPMs. The purpose of this filing is to adopt rules that would allow for the allocation of stocks to CBSX DPMs (the Exchange expects that the filing allowing appointment of
