wide rate provide evidence of de jure and de facto absence of government control over the company’s export activities. Accordingly, we will issue a questionnaire to Qizheng, including a separate rate section. The review will proceed if the responses provide sufficient indication that Qizheng is not subject to either de jure or de facto government control with respect to its exports of brake rotors. However, if Qizheng does not demonstrate its eligibility for a separate rate, the company will be deemed not separate from other companies that exported during the POI, and the new shipper review for Qizheng will be rescinded.

On August 17, 2006, the Pension Protection Act of 2006 (H.R. 4) was signed into law by Congress. Section 1632 of H.R. 4 temporarily suspends the authority of the Department to instruct U.S. Customs and Border Protection to collect a bond or other security in lieu of a cash deposit in new shipper reviews. Therefore, the posting of a bond or other security under section 751(a)(2)(B)(iii) of the Act in lieu of a cash deposit is not available in this case.

Importers of brake rotors exported and sold in the United States, its territories, and possessions after September 10, 2004, with respect to which a final determination made by the Department pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 351.221(c)(1) of this subpart was made on or before August 17, 2006, and liquidated relevant entries covering the subject merchandise (i.e., brake rotors) at the PRC-wide entity rate of 43.32 percent.

Interested parties that need access to propriety information in this new shipper review should submit a request for a protective order in accordance with section 751.22 of this subpart. On August 17, 2006, the Department issued an administrative protective order in this new shipper review.

Moreover, based on the information on the record with which to value zinc plating. Moreover, based on the information on the record, the Department found that this quote should be applied to the weight of the un-plated lock washers. Thus, the Department recalculated the antidumping duty margin for Hangzhou.

On August 25, 2006, the United States Court of International Trade (“Court”) sustained the final remand determination made by the Department of Commerce (“the Department”) pursuant to the Court’s remand of the final results of the administrative review of Helical Spring Lock Washers (“HSLWs”) from the People’s Republic of China. See Shakeproof Assembly Components Division of IL Tool Works, Inc. v. United States, Consol. Ct. of Int’l Trade Aug. 25, 2006 (“Shakeproof Assembly”). This case arises out of the Department’s October 1, 2002, through September 30, 2003, administrative review final results. See Certain Helical Spring Lock Washers from the People’s Republic of China: Final Results of Antidumping Duty Administrative Review, 70 FR 28274 (May 17, 2005) (“Final Results”). The final judgment in this case was not in harmony with the Department’s Final Results.

FOR FURTHER INFORMATION CONTACT: Marin Weaver or Charles Riggle, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–2336 or (202) 482–0650, respectively.

SUPPLEMENTARY INFORMATION: In Shakeproof Assembly Components v. United States, Slip Op. 05–163 (CIT, Dec. 22, 2005), the Court remanded the underlying results to the Department for reconsideration of the methodology employed to value plating services in the calculation of the antidumping duty rate for Hangzhou Spring Washer Co., Ltd. (“Hangzhou”).

On May 15, 2006, the Department issued the draft results of redetermination pursuant to remand to Hangzhou and Shakeproof Assembly Components Division of Illinois Tool Works Inc. (“Shakeproof”) for comment. On May 18, 2006, we received comments on our draft redetermination from both parties. On June 2, 2006, the Department issued its final results of redetermination pursuant to remand to the Court. The remand redetermination explained that the Department found the Sudha Electroplaters price quote to be the most reliable information on the record with which to value zinc plating. Moreover, based on the information on the record, the Department found that this quote should be applied to the weight of the un-plated lock washers. Thus, the Department recalculated the antidumping duty margin for Hangzhou.
