SUPPLEMENTARY INFORMATION: The first generation of frontal air bags saved the lives of thousands of drivers and adult or teenage right-front passengers. But they harmed occupants positioned close to the air bag at the time of deployment, especially infants and children. In 1998-1999, air bags were redesigned by depowering—by removing some of the gas-generating propellant or stored gas from their inflators—and/or by reducing the volume or rearward extent of air bags, positioning them further from occupants, tethering and hybrid inflators. NHTSA facilitated the redesign by a 1997 amendment to Safety Standard 208 (49 CFR 571.208) that permits "sled certification": a sled test in lieu of a barrier impact to certify that air bags would protect an unrestrained occupant (62 FR 12960). Statistical analyses of crash data through 2004 from NHTSA's Fatality Analysis Reporting System (FARS) and the Special Crash Investigations (SCI) compare fatality risk with sled-certified and first-generation air bags.

The overall fatality risk in frontal crashes of 0-12 year-old child passengers in the front seat is a statistically significant 45 percent lower with sled-certified air bags than with first-generation air bags; fatalities caused by air bags in low-speed crashes were reduced by 83 percent.

The overall fatality risk of drivers and of right-front passengers age 13 and older in frontal crashes is not significantly different with sled-certified air bags than with first-generation air bags; sled-certified air bags preserved

the life-saving benefits of first-generation air bags.

How Can I Influence NHTSA's Thinking on This Subject?

NHTSA welcomes public review of the technical report and invites reviewers to submit comments about the data and the statistical methods used in the analyses. NHTSA will submit to the Docket a response to the comments and, if appropriate, additional analyses that supplement or revise the technical report.

How Do I Prepare and Submit Comments?

Your comments must be written and in English. To ensure that your comments are correctly filed in the Docket, please include the Docket number of this document (NHTSA-2006-26486) in your comments.

Your primary comments must not be more than 15 pages long (49 CFR 553.21). However, you may attach additional documents to your primary comments. There is no limit on the length of the attachments.

Please send two paper copies of your comments to Docket Management, submit them electronically, or fax them. The mailing address is U.S. Department of Transportation Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. If you submit your comments electronically, log onto the Dockets Management System Web site at <http://dms.dot.gov> and click on "Help" to obtain instructions. The fax number is 1-202-493-2251.

We also request, but do not request you to send a copy to Charles Kahane, Evaluation Division, NPO-131, National Highway Traffic Safety Administration, Room 5208, 400 Seventh Street, SW., Washington, DC 20590 (alternatively, fax to 202-366-2559 or e-mail to ckahane@nhtsa.dot.gov). He can check if your comments have been received at the Docket and he can expedite their review by NHTSA.

How Can I Be Sure That My Comments Were Received?

If you wish Docket Management to notify you upon its receipt of your comments, enclose a self-addressed, stamped postcard in the envelope containing your comments. Upon receiving your comments, Docket Management will return the postcard by mail.

How Do I Submit Confidential Business Information?

If you wish to submit any information under a claim of confidentiality, send three copies of your complete
