

seek access to the Seashore by means of an ORV and those desiring a variety of other experiences has increased. Related to the need to provide consistency in ORV management is the need to provide consistency in resource protection in areas of ORV use, particularly as required under the Endangered Species Act of 1973. Compounding these issues, the Seashore is also subject to dynamic weather-related events that continually change the beach, and sometimes limit the area that can be accessed safely by ORVs. Therefore, the need for action is to: (1) Provide a comprehensive plan that complies with Executive Orders 11644 and 11989 respecting ORV use, and with laws (e.g. the NPS Organic Act, park enabling legislation, Endangered Species Act, Migratory Bird Treaty Act), NPS regulations (36 CFR 4.10), and policies to minimize impacts to park resources and values; and, (2) Develop and assess a range of options within the plan that provides for a variety of visitor experiences, including access for ORV use, to the degree these experiences are consistent with the park's enabling legislation.

The ORV Management Plan/EIS will cover lands administered by the NPS on Bodie, Hatteras, and Ocracoke Islands on the Outer Banks of North Carolina. The 5,880 acre Pea Island National Wildlife Refuge (Refuge), located at the northern end of Hatteras Island, is part of the Seashore, but is administered for refuge purposes by the U.S. Fish and Wildlife Service (USFWS) in accordance with the National Wildlife Refuge System Administration Act, 16 U.S.C. 668dd *et seq.* The USFWS is responsible for determining whether ORVs are compatible with the purposes of the Refuge; therefore Refuge lands are excluded from the Seashore ORV Management Plan/EIS.

During initial internal scoping the NPS interdisciplinary team identified a number of draft objectives for the ORV Management Plan/EIS, including:

Management Methodology: Identify criteria to designate appropriate ORV use areas and routes.

Visitor Use and Experience: Manage ORV use to allow for a variety of visitor use experiences. Minimize conflicts between ORV use and other uses. Provide for ORV use for those activities consistent with park resource conservation as recognized under the Seashore's enabling legislation.

Threatened, Endangered, and Species of Special Concern: Provide protection for threatened, endangered, and sensitive species and their habitats from adverse impacts related to ORV use.

Because the management of ORVs at the Seashore has been controversial, the

NPS has arranged through an interagency agreement with the U.S. Institute for Environmental Conflict Resolution for a neutral facilitation team to assess the feasibility of using negotiated rulemaking to reach a consensus agreement among interested parties that may be used as a basis for an NPS ORV special regulation. Based on the feasibility assessment, the NPS is developing a Notice of Intent to Establish a Negotiated Rulemaking Committee which would be published separately in the **Federal Register** for public comment. If a committee is established, the negotiated rulemaking and NEPA planning processes would be conducted concurrently.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The draft and final ORV Management Plan/EIS will be made available to all known interested parties and appropriate agencies. Full public participation by Federal, State, and local agencies as well as other concerned organizations and private citizens is invited throughout the preparation process of this document.

The responsible official for this ORV Management Plan/EIS is Patricia A. Hooks, Regional Director, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: December 1, 2006.
