In exchange for allowing PSEG to follow a revised compliance schedule that will delay the installation of controls at this unit, the United States and New Jersey have secured commitments from PSEG to install and operate emission controls and implement emission reductions measures at this unit and at other units in the PSEG system to ensure that the Amendment's emission reductions are equivalent to, and certain aspects superior to, the original Consent Decree. The proposed amendment also requires PSEG to pay a civil penalty of \$6 million for PSEG's failure to timely comply with the Consent Decree's schedule for installing and operating the emission controls at Hudson Unit 2. In addition, the Amendment requires PSEG to spend \$3.25 million on environmentally beneficial projects in New Jersey. The State of New Jersey is a signatory to the Consent Decree and the proposed Amendment.
