

Responses to this collection of information are therefore mandatory (see 40 CFR 152.132).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 15 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pesticide registrants.

Estimated Number of Respondents: 1720.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 595.

Estimated Total Annual Labor Cost: \$46,555.62.

Changes in the Estimates: There is a decrease of 405 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is an adjustment that reflects EPA's expectation that only 2,479 notices will be submitted to the Agency annually over the next 3 years, versus the 4,000 notices EPA had previously expected to receive on an annual basis.

Title: Land Disposal Restrictions No-Migration Variances (Renewal).

ICR numbers: EPA ICR No. 1353.08, OMB Control No. 2050-0062.

ICR status: This ICR is currently scheduled to expire on December 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: To receive a variance from the hazardous waste land disposal prohibitions, owner/operators of hazardous waste storage or disposal facilities may petition the Environmental Protection Agency to

allow land disposal of a specific restricted waste at a specific site. The EPA Regional Offices will review the petitions and determine if they successfully demonstrate “no migration.” The applicant must demonstrate that hazardous wastes can be managed safely in a particular land disposal unit, so that “no migration” of any hazardous constituents occurs from the unit for as long as the waste remains hazardous. If EPA grants the variance, the waste is no longer prohibited from land disposal in that particular unit. If the owner/operator fails to make this demonstration, or chooses not to petition for the variance, best demonstrated available technology (BDAT) requirements of 40 CFR 268.40 must be met before the hazardous wastes are placed in a land disposal unit.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3,168 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business.

Estimated Number of Respondents: 1.

Frequency of Response: One-time.

Estimated Total Annual Hour Burden: 3,168.

Estimated Total Annual Cost: \$211,275, which includes \$121 annualized capital or O&M costs and \$211,154 annual labor costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: December 7, 2006.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Tennessee Valley Authority—Paradise Fossil Plant; Drakesboro (Muhlenberg County), KY

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to a state operating permit.

SUMMARY: Pursuant to Clean Air Act Section 505(b)(2) and 40 CFR 70.8(d), the EPA Administrator signed an Order, dated October 20, 2006, denying a petition to object to a state operating permit proposed by the Kentucky Division for Air Quality (KDAQ) for Tennessee Valley Authority (TVA) Paradise Fossil Plant (TVA Paradise) located in Drakesboro, Muhlenberg County, Kentucky. This Order constitutes final action on the petition submitted by Preston Forsyth, the Center for Biological Diversity, Kentucky Heartwood, and Hillary Lambert (Petitioners). Pursuant to section 505(b)(2) of the Clean Air Act (the Act) any person may seek judicial review of the Order in the United States Court of Appeals for the appropriate circuit within 60 days of this notice under section 307 of the Act.

ADDRESSES: Copies of the final Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4, Air, Pesticides and Toxics Management Division, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. The final Order is also available electronically at the following address: http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitions/tvaparadise_decision2005.pdf

FOR FURTHER INFORMATION CONTACT: Art Hofmeister, Air Permits Section, EPA Region 4, at (404) 562-9115 or hofmeister.art@epa.gov.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review and, as appropriate, to object to operating permits proposed by state permitting authorities under title V of the Act, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the Act and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that

were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

Petitioners submitted a petition on April 21, 2005, requesting that EPA object to a state title V operating permit proposed by KDAQ for TVA Paradise. This action followed an objection (to the proposed permit) issued by EPA on February 18, 2005. On August 18, 2006, at the source's request, KDAQ subsequently withdrew the proposed permit. On October 20, 2006, the Administrator issued an Order denying the petition on the basis of it being moot since a permit (about which EPA could further object) no longer existed. The Order further explains EPA's rationale for denying the petition.

Dated: December 5, 2006.

A. Stanley Meiburg,

Deputy Regional Administrator, Region 4.
