

petition in an Order dated October 9, 2002. Pursuant to Section 502(b) of the Act, Petitioner appealed to the U.S. Court of Appeals for the Eleventh Circuit (the Court). On January 20, 2006, the Court partially granted Petitioner's request for review, vacated the October 9, 2002, Order with respect to the mailing list issue, and remanded the issue to EPA for further consideration. Upon further consideration, EPA granted Petitioner's request to object to the King Finishing permit for EPD's failure to use a mailing list.

ADDRESSES: Copies of the Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4, Air, Pesticides and Toxics Management Division, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The final Order is also available electronically at the following address: http://www.epa.gov/region7/programs/artd/air/title5/petitiondb/petitions/kingfinishing_decision2001_remanded.pdf

FOR FURTHER INFORMATION CONTACT: Art Hofmeister, Air Permits Section, EPA Region 4, at (404) 562-9115 or hofmeister.art@epa.gov.

SUPPLEMENTARY INFORMATION: Other inconsistencies (with the Act) alleged by the Petitioner were: that the public participation process and the public notice of the draft permit were inadequate; that the permit improperly limits enforcement authority and the use of credible evidence; and that the permit contains both inadequate monitoring and reporting requirements. EPA's October 9, 2002, denial of the above issues was unaffected by the Court's decision.

Dated: December 5, 2006.

A. Stanley Meiburg,

Deputy Regional Administrator, Region 4.

Acid Copper Chromate (ACC); Product Cancellation Order to Delete ACC Uses in Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order terminating all residential uses of the acid copper chromate (ACC) registration held by OSMOSE, Inc. The affected registration is EPA Reg. No. 3008-60. OSMOSE voluntarily requested the use termination, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. OSMOSE requested that it not be provided with any existing stocks provisions for the product. The Agency announced receipt of this request in a July 18, 2006 **Federal Register** Notice of Receipt of Request (71 FR 40717) (FRL-8080-5). In the July 18, 2006 Notice, EPA stated that it would accept the request and issue an order implementing the use termination, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of the request, or unless the registrant withdrew the request within this period, which closed August 17, 2006. The Agency received one comment on the notice which was carefully considered by the Agency; it was determined that the request did not merit further review. Further, the registrant did not withdraw its request. Accordingly, on October 17, 2006 EPA approved the request. EPA hereby issues through this notice an order implementing the approved use terminations. Any distribution, sale, or use of the ACC product subject to this cancellation order is permitted only in accordance with the terms of this order. **DATES:** The cancellations are effective December 14, 2006.
