

DEPARTMENT OF LABOR**Employment and Training Administration****Proposed Collection; Comment Request****ACTION:** Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. SUPPLEMENTARY INFORMATION:**I. Background**

State Workforce Agencies serve employers and jobseekers within the One-Stop Career Center system by posting job orders and taking work applications (commonly referred to as registrations). This information is essential to the core operations of One-Stop Career Centers. The exact information collected on job orders and

work applications and the manner in which it is collected is determined by the state. At a minimum, states must comply with 20 CFR 652.8(d)(5), which requires that each state retain applications and job orders for one year.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
