

action could potentially impact wildlife species associated with closed canopy forest communities.

Responsible Official

Cathy Barbouletos, Forest Supervisor, Flathead National Forest, 1935 3rd Avenue East, Kalispell, MT 59901, is the responsible official for the preparation of the EIS and will make a decision regarding this proposal.

Nature of Decision To Be Made

This project will provide for removal of approximately 5.5 MMBF of commercial forest products, use of prescribed fire for ecosystem maintenance burning, shrub/grassland maintenance, reduction of hazardous fuels, and provide personal-use wood products for the local community.

Scoping Process

Public and internal scoping for this proposal is being initiated by the publication of this Notice of Intent to prepare an environmental impact statement for the Cooney McKay Project in the **Federal Register**. The Forest Service scoping for the proposal includes the publishing of a legal notice in the paper of record, which will coincide with a mailing of information about the proposal to interested parties during January 2007. Multiple mailings to other government agencies, the public and organizations are planned to insure that interested parties are aware of and have an opportunity to comment on the proposal. The Forest Service plans on issuing news releases periodically during the development of this proposal. In addition the proposal will be included in the Schedule of Proposed Actions, which is updated quarterly and available on the National Forest Service Web site. A public meeting and field trip are tentatively planned for the June–July 2007 timeframe, the location of both of these scoping events will be at the Forest Service Condon Work Center, Condon, Montana.

Preliminary Issues

Preliminary issues identified to-date include concerns that the implementation of the proposed action could result in the loss of white-tailed deer winter habitat and could also potentially reduce habitat for wildlife species associated with closed forest canopy communities.

Comment Request

This Notice of Intent initiates the scoping process, which guides the development of the environmental impact statement.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage, but that are not raised until after completion of the final environmental impact statement, may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Natural Resources Conservation Service

The Secretary of Agriculture's determination of the Primary Purpose of Specified State of Florida Conservation Programs

AGENCY: Natural Resources Service (NRCS), USDA.

ACTION: Notice of determination.

SUMMARY: The Natural Resources Conservation Service (NRCS) is providing public notice that the Secretary of Agriculture has determined the cost-share payments made under specific State of Florida conservation programs are primarily for the purposes of conserving soil and water resources, or protecting and restoring the environment. NRCS was assigned technical and administrative responsibility for reviewing the State of Florida's conservation programs and making appropriate recommendations for the Secretary's determination of primary purpose. The programs are:

- Program for Citrus, Cow/Calf, Dairies and Other Agriculture in the Lake Okeechobee Priority Basins;
- Program for Indian River Area Citrus Groves;
- Program for Interim Measures for Tri-County Agricultural Area Farms;
- Program for Interim Measures for Florida Producers of Container-Grown Plants;
- Program for Best Management Practices for Shadehouse Grown Leatherleaf Ferns;
- Nitrogen Best Management Practices Program for Florida Ridge Citrus;
- Nitrogen Interim Measure for Florida Citrus;
- Nitrogen Interim Measure for Bahiagrass and Bermuda Grass; and
- Florida Conservation Reserve Enhancement Program.

This determination is in accordance with Section 126 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 126), and permits recipients of cost-share payments to exclude from gross income to the extent allowed by the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Mr. Charles H. Bronson, Commissioner of Agriculture, Florida 32399, or Branch Chief, Environmental Improvement Programs, Natural Resources Conservation Service, 1400 Independence Avenue SW., Washington, DC 20250.
