

9. Public services related to provision of fire, police, emergency response, and other public service agencies;

10. Recreation related to impacting existing recreation, and the beneficial impact of providing new recreational opportunities;

11. Traffic and transportation, including marine navigation and ground transportation;

12. Utilities and services as a result of an increased demand for such services; and

13. Cumulative impacts from past, present, and foreseeable future projects.

4. *Alternatives:* Several alternatives are being considered for the proposed action. The Draft EIS/EIR will include a coequal analysis of the project alternatives considered. Alternatives being considered for the proposed project include an alternative development scenario, which includes one proposed cruise ship berth in the Outer Harbor, modifications to parking areas and transportation corridors, and optional locations for the Red Car Museum and maintenance facility; a No Project/No Action Alternative that would not implement any of the project elements; and a No Federal Action Baseline Alternative that would involve building the project without the water cuts and construction of the Outer Harbor Cruise Terminal, which require Corps permits. These alternatives will be further formulated and developed during the scoping process. Additional alternatives that may be developed during scoping will also be considered in the Draft EIS/EIR.

5. *Scoping Process:* A Notice of Intent for the original project design, titled From Bridge to Breakwater San Pedro Waterfront and Promenade, was published in the **Federal Register** on August 8, 2005. Three public meetings were held to obtain public comments. The Corps permit application reflecting the new project design has since been submitted. A new public meeting will be held to receive public comment and assess public concerns regarding the appropriate scope and preparation of the Draft EIS/EIR for the modified project. Participation in the public meeting by federal, state, and local agencies and other interested organizations and persons is encouraged.

The Corps of Engineers will also be consulting with the U.S. Fish and Wildlife Service under the Endangered Species Act and Fish and Wildlife Coordination Act, and with the National Marine Fisheries Service under the Magnuson-Stevens Fishery Conservation and Management Act. Additionally, the EIS/EIR will assess the

consistency of the proposed action with the Coastal Zone Management Act and potential water quality impacts pursuant to Section 401 of the Clean Water Act. The public scoping meeting for the NOP/NOI will be held on January 23, 2007 at the Crowne Plaza Hotel in San Pedro, located at 601 South Palos Verdes Street. Written comments will be accepted until February 28, 2007.

6. *Availability of the Draft EIS:* The Draft EIS/EIR is expected to be published and circulated in late Fall 2007, and a public meeting will be held after its publication.

Dated: December 13, 2006.

6. *Other Submission Requirements:* Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. *Electronic Submission of Applications.*

Applications for grants under the Program for North American Mobility in Higher Education, CFDA Number 84.116N must be submitted electronically using the Government-wide Grants.gov Apply site at <http://www.Grants.gov>. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under *Exception to Electronic Submission Requirement*.

You may access the electronic grant application for the Program for North American Mobility in Higher Education at <http://www.Grants.gov>. You must search for the downloadable application package for this program or competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.326, not 84.326A).

Please note the following:

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted, and must be date and time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not consider your application if it is date and time stamped by the Grants.gov system later than 4:30 p.m., Washington, DC time, on

the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov at <http://e-Grants.ed.gov/help/GrantsgovSubmissionProcedures.pdf>.

- To submit your application via Grants.gov, you must complete all steps in the Grants.gov registration process (see http://www.grants.gov/applicants/get_registered.jsp). These steps include (1) Registering your organization, a multi-part process that includes registration with the Central Contractor Registry (CCR); (2) registering yourself as an Authorized Organization Representative (AOR); and (3) getting authorized as an AOR by your organization. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see <http://www.grants.gov/section910/Grants.govRegistrationBrochure.pdf>). You also must provide on your application the same D-U-N-S Number used with this registration. Please note that the registration process may take five or more business days to complete, and you must have completed all registration steps to allow you to submit successfully an application via Grants.gov. In addition you also will need to update your CCR registration on an annual basis. This may take three or more business days to complete.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information you typically provide on the following forms: Application for Federal Education Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications. Please note that two of these forms—the SF 424 and the Department of Education Supplemental Information for SF 424—have replaced the ED 424 (Application for Federal Education Assistance).

- You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

- Your electronic application must comply with any page-limit requirements described in this notice.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by e-mail. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30 p.m., Washington, DC time, on the

application deadline date, please contact the person listed elsewhere in this notice under **FOR FURTHER INFORMATION CONTACT** and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because—

- You do not have access to the Internet; or

- You do not have the capacity to upload large documents to the Grants.gov system; and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application.

If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

V. Application Review Information

1. *Selection Criteria:* The selection criteria for evaluating applications for this program are from 34 CFR 75.210 of EDGAR and are listed in the application package.

2. *Review and Selection Process:* An Additional factor we consider in selecting an application for an award is whether an application demonstrates a tri-lateral, innovative North American approach to training and education.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* The success of this program depends upon—(1) The extent to which funded projects are being replicated (*i.e.*, adopted or adapted by others); and (2) The manner in which projects are being institutionalized and continued after funding. These two performance measures constitute the Fund for the Improvement of Postsecondary Education's (FIPSE's) indicators of the success of the program. If funded, you will be asked to collect and report data from your project on steps taken toward achieving these goals. Consequently, applicants are advised to include these two outcomes in conceptualizing the design, implementation, and evaluation of their proposed projects. Institutionalization and replication are important outcomes that ensure the ultimate success of international consortia funded through this program.
