

corrugated metal pipe culverts. Inlet protection will be installed while the outlet will use the existing rock channel as erosion protection. An approximately 50-foot length of road just east of the existing culvert will be widened 6 to 10 feet by adding a rock embankment and backfilling to widen the road on the south slope of the Burr Canyon drainage.

A cattle guard will be placed at the park boundary by the National Park Service to prevent cattle from entering the park from adjacent Bureau of Land Management-administered lands, and the existing cattle guard at mile point 0.55 will be removed when the current grazing allotment expires.

This course of action and three alternatives were analyzed in the Draft and Final Environmental Impact Statements. The full range of foreseeable environmental consequences was assessed, and appropriate mitigating measures were identified.

The Record of Decision includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a finding on impairment of park resources and values, a listing of measures to minimize environmental harm, and an overview of public involvement in the decision-making process.

### Drug Enforcement Administration

[Docket No. 04-48]

#### William R. Lockridge, M.D. Affirmance of Immediate Suspension of Registration

##### Introduction and Procedural History

On May 17, 2004, I, the Deputy Administrator of the Drug Enforcement Administration, issued an Order to Show Cause and Notice of Immediate Suspension of the practitioner's Certificate of Registration, BL6779005, held by William R. Lockridge, M.D. (Respondent), of Wayne, N.J. The Notice of Immediate Suspension was based upon my preliminary finding that Respondent was "responsible for the diversion of large quantities of controlled substances" by writing prescriptions for controlled substances that were issued on behalf of persons he never physically examined and which thus lacked a "legitimate medical purpose." Order to Show Cause at 9. Based on this finding, I concluded that Respondent's continued registration "constitute[d] an imminent danger to the public health and safety because of
