BILLING CODE 4163-19-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institute for Occupational Safety and Health; Final Effect of Designation of a Class of Employees for Addition to the special Exposure Cohort

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) gives notice concerning the final effect of the HHS decision to designate a class of employees at the Oak Ridge Thermal Diffusion Plant (S-50), Oak Ridge, Tennessee, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On November 9, 2006, as provided for under 42 U.S.C. 7384q(b), the Secretary of HHS designated the following class of employees as an addition to the SEC:

Employees of the Department of Energy predecessor agencies and their contractors or subcontractors who were monitored or should have been monitored while working at S-50 Oak Ridge Thermal Diffusion Plant (S-50) for a number of work days aggregating at least 250 work days during the period from July 9, 1944 through December 31, 1951, or in combination with work days within the parameters established for one or more other classes of employees in the SEC.

This designation became effective on December 9, 2006, as provided for under 42 U.S.C. 73841(14)(C). Hence, beginning on December 9, 2006, members of this class of employees, defined as reported in this notice, became members of the Special Exposure Cohort.

FOR FURTHER INFORMATION CONTACT:

Larry Elliott, Director, Office of Compensation Analysis and Support, National Institute for Occupational Safety and Health (NIOSH), 4676 Columbia Parkway, MS C-46, Cincinnati, OH 45226, Telephone 513-533-6800 (this is not a toll-free number). Information requests can also

be submitted by e-mail to
OCAS@CDC.GOV.

John Howard,

Director, National Institute for Occupational Safety and Health.

BILLING CODE 4163-19-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institute for Occupational Safety and Health; Final Effect of Designation of a Class of Employees for Addition to the special Exposure Cohort

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) gives notice concerning the final effect of the HHS decision to designate a class of employees at the Oak Ridge Institute of Nuclear Studies Cancer Research Hospital, Oak Ridge, Tennessee, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On November 9, 2006, as provided for under 42 U.S.C. 7384q(b), the Secretary of HHS designated the following class of employees as an addition to the SEC:

Employees of the Department of Energy predecessor agencies and their contractors or subcontractors who were monitored or should have been monitored while working at the Oak Ridge Institute of Nuclear Studies Cancer Research Hospital from May 15, 1950, through December 31, 1963, and who were employed for a number of work days aggregating at least 250 work days or in combination with work days within the parameters established for one or more other classes of employees in the SEC.

This designation became effective on December 9, 2006, as provided for under 42 U.S.C. 73841(14)(C). Hence, beginning on December 9, 2006, members of this class of employees, defined as reported in this notice, became members of the Special Exposure Cohort.

BILLING CODE 4163-19-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-07-04JL]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Intervention Development to Increase Cervical Cancer Screening Among Mexican American Women: Phase 2—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Differences in incidence of invasive cervical cancer exist among some minority populations. Among women

older than age 29, cervical cancer incidence for Hispanic women was approximately twice that for non-Hispanic women. Papanicolaou (Pap) tests can prevent cervical cancer. Nevertheless, recent studies suggest that Hispanic women in the United States and Puerto Rico under-use cervical cancer screening tests. Additionally, survey data have shown that Hispanic

women in the international border region of the United States under-utilize these Pap tests compared to non-Hispanic women in the same region. The need exists to increase Pap test screening among Hispanic women living in the United States.

The purpose of this project is to refine a multi-component behavioral intervention delivered by lay health

workers to increase cervical cancer screening among U.S. and foreign-born Mexican women. The proposed study will use personal interviews and workshops. There will be no cost to respondents other than their time.

Estimated Annualized Burden Hours

Type of data collection	Number of respondents	Number of responses per respondent	Average burden per responses (in hours)	Total burden (in hours)
Personal interviews	128	1	2	256
Workshops	60	1	5.5	165
Total				411

Dated: December 14, 2006.

Joan F. Karr,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

[Docket Number NIOSH-091]

NIOSH Proposed Revision of the "Occupational Exposure Sampling Strategies Manual (OESSM)"

AGENCY: The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

ACTION: Notice to request public comments.

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) is considering updating the Occupational Exposure Sampling Strategies Manual(OESSM), NIOSH Document Number: DHHS (NIOSH) Publication Number 77-173; and requests user feedback to maximize the relevancy of any revisions to the document. Specifically, NIOSH seeks input in the following areas:

1. The relevance, currency, and appropriateness of the OESSM; identification of the most useful components of the OESSM; information on the disciplines and jobs of current users; and other useful resources related to sampling strategies.

2. The need for an updated/revised OESSM; the types of information needed but not currently included in the OESSM; the revisions needed to make the OESSM more useful; the gaps,

unmet needs for guidance, or needs for new information; and the topics that do not need to be updated or addressed in the OESSM to avoid duplicating already existing materials.

3. Information needs relative to exposure assessment and sampling strategies (e.g., qualitative vs. quantitative, control banding approaches, etc.).

4. The Action Level approach (decision statistics, utility of the decision logic chart in the current OESSM [p. 11]).

5. Statistical issues, including the need for new sampling strategy statistics, the existing sampling strategy applications, and the need for specific sampling strategies that are currently not addressed.

6. The most appropriate (needed or preferred) dissemination medium for an updated/revised OESSM (hard copy, CD, Web-based, etc.), including the preferred organizational format (e.g., one large document, one overview document with several monographs on specific topics, etc).

NIOSH expects to hold a public meeting (date, time, and location to be announced in the **Federal Register** on a later date) for additional input on future occupational exposure sampling strategies guidance.

A copy of the current Occupational Exposure Sampling Strategies Manual and additional information related to this announcement can be found at: <http://www.cdc.gov/niosh/review/public/77-173>.

ADDRESSES: Comments should be submitted to the NIOSH Docket Office, ATTN: Docket Number NIOSH-091, Robert A. Taft Laboratories, 4676 Columbia Parkway, M/S C-34, Cincinnati, OH 45226, telephone 513/533-8450, fax 513/533-8285.

Comments may also be submitted directly through the Web site <http://www.cdc.gov/niosh/review/public/77-173>. The document will remain available for comment until February 28, 2007.

All information received in response to this notice will be available for public examination and copying at the NIOSH Docket Office, Room 113, 4676 Columbia Parkway, Cincinnati, Ohio 45226.

Contact Person for Technical Information: Mary Lynn Woebkenberg, Ph.D., Robert A Taft Laboratories, 4676 Columbia Parkway, Mailstop C-22, Cincinnati, Ohio 45226.

Dated: December 18, 2006.

James D. Seligman,

Chief Information Officer, Center for Disease Control and Prevention.
