## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

### Information Pertaining to the Requirement To Be Submitted

1. *The title of the information collection:* Policy Statement for the “Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement,” Maintenance of Existing Agreement State Programs, Request for Information Through the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire, and Agreement State Participation in IMPEP.

2. *Current OMB approval number:* OMB 3150-0183.

3. *How often the collection is required:* There are four activities that occur under this collection: Information collection activities required by the IMPEP questionnaire in preparation for

an IMPEP review conducted no less frequently than every four years; while the following activities are all collected on an annual basis—policy statement addressing requirements for new Agreement States; participation by Agreement States in the IMPEP reviews; and annual requirements for Agreement States to maintain their programs.

4. *Who is required or asked to report:* 34 Agreement States who have signed Section 274b. Agreements with NRC.

5. *The number of annual respondents:* 34.

6. *The number of hours needed annually to complete the requirement or request:* For States interested in becoming Agreement States: Approximately 4,300 hours. For Agreement State participation in 10 IMPEP reviews (7 Agreement States, 1 NRC Regional Office and 2 Follow-up reviews): 360 hours (an average of 36 hours per review). For maintenance of existing Agreement State programs: 255,600 hours (an average of approximately 7,517 hours per State for 34 Agreement States). For Agreement State response to 7 IMPEP questionnaires annually: 371 hours (an average of 53 hours per program). The total number of hours expended annually is 260,631 hours.

7. *Abstract:* States wishing to become Agreement States are requested to provide certain information to the NRC as specified by the Commission’s Policy Statement, “Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement.” Agreement States need to ensure that the Radiation Control Program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Atomic Energy Act (Act) and must maintain certain information. NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC’s program, meet the applicable parts of the Act, and are adequate to protect public health and safety.

Submit, by March 6, 2007, comments that address the following questions;

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
