

SUPPLEMENTARY INFORMATION:**Background**

On July 3, 2006, the Department published a notice of "Opportunity to Request Administrative Review" of the antidumping duty order on PET film from India for the period of July 1, 2005 through June 30, 2006. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 71 FR 37890 (July 3, 2006). On July 31, 2006, Jindal Poly Films Limited of India (Jindal) and MTZ Polyfilms, Ltd. (MTZ) requested an administrative review of the antidumping duty order on PET film. In response to these requests, the Department of Commerce initiated an antidumping duty administrative review on PET film from India. See *Initiation Notice*.

On August 25, 2006, pursuant to section 351.213(d)(1) of the Department's regulations, Jindal withdrew its request for an administrative review. Section 351.213(d) of the Department's regulations states that the Secretary will rescind an administrative review, in whole or in part, if a party that requested the review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review. We received the withdrawal of Jindal's request for review on August 25, 2006, which is within the requisite 90 days since the *Initiation Notice* was published on July 31, 2006.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the company for which this review is rescinded (Jindal), antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(I). The Department will issue appropriate assessment instructions to CBP 15 days after the publication of this notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption

that reimbursement of antidumping duties occurred and subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with section 777(i) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: January 3, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE**National Oceanic and Atmosphere Administration**

Alaska Coastal Management Program: Incorporation of Revised Coastal District Management Plans for Cities of Skagway, Hoonah, and Pelican; and Deletion of Coastal District Management Plans for Cities of Angoon, Hydaburg, Kake, Klawock, and St. Paul with Associated Areas Meriting Special Attention; Availability of Environmental Assessment and Finding of No Significant Impact

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of availability of Environmental Assessment and Finding of No Significant Impact.

SUMMARY: Notice is hereby given of the availability of the Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) for the National Oceanic and Atmospheric Administration's (NOAA) approval of the State of Alaska's Coastal Management Program (ACMP) request to incorporate revisions to the cities of Skagway, Hoonah and Pelican's coastal district management and plan and to delete the cities of Angoon, Hydaburg, Kake, Klawock, and St. Paul coastal district management plans and associated Areas Meriting Special Attention (AMSA) as a routine program

change to the ACMP. The EA was prepared pursuant to the National Environmental Policy Act (NEPA) U.S.A. 4321 et seq. to assess the environmental impacts associated with the approval and implementation of these revisions to the ACMP, which were submitted to NOAA by the State of Alaska. Pursuant to Section 306(g) of the Coastal Zone Management Act of 1972 as amended (CZMA) and NOAA's Office of Ocean and Coastal Resource Management (OCRM) regulations (15 CFR part 923, subpart H), OCRM is required to approve any amendment, modification, or other change to a state's federally-approved coastal management program. This includes changes to local coastal management programs. See 15 CFR part 923, subpart E.

For the purposes of this EA, the proposed action is approval of the proposed revisions to three district coastal management plans and deletion of the five district coastal management plans and associated AMSA. These changes to the ACMP will bring the three revised district coastal management plans into compliance with the recently-approved amendments to the ACMP, and eliminate five previously-approved district coastal management plans and their associated AMSA. The five districts will no longer participate at the local level in the State's federally-approved coastal zone management program. The coastal area in which the five deleted coastal management programs reside will continue to be covered by the ACMP's federally-approved statewide (rather than local) policies. However, due to other recent changes to the ACMP approved by OCRM, some district area uses and resources may not receive the same level of resource coverage, including subsistence resources.

NOAA finds that the ACMP has met the requirements for submitting a routine program change to OCRM and proposes to approve the program change. Based upon the EA, NOAA proposes to conclude that a Finding of No Significant Impact is appropriate, and therefore, an Environmental Impact Statement is unnecessary. The Council on Environmental Quality's regulations to implement NEPA require agencies to provide public notice of the availability of environmental documents. 40 CFR 1506.6. This notice is part of NOAA's action to comply with this requirement.

A copy of the final EA and the Finding of No Significant Impact may be found on OCRM's Web site at <http://coastalmanagement.noaa.gov/assessments/welcome.html> or may be obtained upon request from: Helen Bass, Coastal Programs Division (N/ORM3),

Types of take include Level B harassment during vessel and aircraft line transect and photo-identification surveys, biopsy sampling, instrument attachment (suction-cup tags on cetaceans), and pinniped capture/tag/release. For cetaceans, the proposed research would be conducted on all age classes, except neonates. The pinniped research would be conducted on all ages, including pups. The proposed study area for the permit includes waters within or
