

Arca Equities Rule 8.400(e) establishing certain restrictions on ETP Holders acting as registered Market Makers in Paired Trust Shares is reasonably designed to address potential conflicts of interest in connection with ETP Holders acting as registered Market Makers in Paired Trust Shares.²⁵

The Commission believes that the listing and delisting criteria for the Paired Trust Shares should help to maintain a minimum level of liquidity and therefore minimize the potential for manipulation of the Paired Trust Shares. Additionally, the Commission finds that proposed NYSE Arca Equities Rule 8.400(e) is reasonably designed to help ensure that an ETP Holder acting as a Market Maker in Paired Trust Shares provide the Exchange with all the necessary information relating to their trading in the asset, commodity or other economic interest underlying the Reference Price, related options, related futures or options on futures, or any other related derivatives.

The Commission notes that, if the MACRO Tradeable Shares should be delisted by the listing exchange, the Exchange would no longer have authority to trade the MACRO Tradeable Shares pursuant to this approval order.

In support of this proposal, the Exchange has made the following representations:

1. The Exchange's surveillance procedures are adequate to properly monitor Exchange trading of the MACRO Tradeable Shares.

2. Prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the MACRO Tradeable Shares.

3. The Exchange will require ETP Holders to deliver a prospectus to investors purchasing newly issued MACRO Tradeable Shares prior to or concurrently with the confirmation of a transaction and will note this prospectus delivery requirement in the information circular.

This approval order is conditioned on the Exchange's adherence to these representations.

The Commission finds good cause for approving this proposal before the thirtieth day after the publication of notice thereof in the **Federal Register**. As noted previously, the Commission previously found that the listing and trading of the MACRO Tradeable Shares on Amex is consistent with the Act. The

Commission presently is not aware of any regulatory issue that should cause it to revisit that earlier finding or preclude the trading of the MACRO Tradeable Shares on the Exchange pursuant to UTP. Therefore, accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for the MACRO Tradeable Shares.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁶ that the proposed rule change (SR-NYSEArca-2006-75), as amended by Amendment Nos. 1 and 2, be and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁷

Nancy M. Morris,
Secretary.
