Background

The FHWA in cooperation with the Idaho Department of Transportation (ITD), and Connecting Idaho Partners (CIP) will prepare an EIS to identify an alignment for the extension of State Highway 16 (SH 16) from SH 44 (State Street) to Interstate 84 (I–84) in Ada County, Idaho. This extension includes a new bridge across the Boise River. Notice is hereby given that the public scoping process has been initiated to prepare an EIS that will address the impacts of and alternatives to the proposal. The purpose of the scoping process is to solicit public comment regarding the full spectrum of issues and concerns, including a suitable range of alternatives, and the nature and extent of potential environmental impacts and appropriate mitigation measures that should be addressed in the EIS process. The EIS will examine the short and long-term impacts of a reasonable range of alternatives, including the no action alternative, on the natural, physical, and human environments. The impacts assessment will include, but not be limited to, impacts on wetlands, wildlife, and fisheries; social environment; changes in land use; aesthetics; changes in traffic; and economic impacts. Environmental Justice (as outlined in Executive Order 12898) will also be addressed as part of the impact assessment. The EIS will also examine measures to mitigate adverse impacts resulting from the proposed action.

Comments are being solicited from Federal, State, and local agencies and from private organizations and citizens who have interest in this proposal. Public information meetings will be held in the project area to discuss the potential alignments. The draft EIS will be available for public and agency review, and a public hearing will be held to receive comments. Public notice will be given of the time and place of all meetings and hearings.

Comments and/or suggestions from all interested parties are requested, to ensure that the purpose and need for the project, the full range of all issues, and significant environmental issues in particular, are identified and reviewed. Comments or questions concerning this proposed action and/or its EIS should

be directed to the FHWA, ITD or CIP at the addresses listed previously.

It is anticipated that a draft EIS will be available in the Fall of 2009.
