**SUPPLEMENTARY INFORMATION:** The UAGA is a model law drafted by the National Conference of Commissioners on Uniform State Laws in an effort to achieve uniformity among the anatomical gift laws of the States. Three ACOT recommendations provided a stimulus for revising the UAGA. In particular, recommendation number 10 (recommendation to engage in legislative strategies to encourage medical examiners not to withhold life-saving organs); recommendation number 19 (recommendation to take steps to ensure that the donors' wishes are fulfilled); and recommendation number 20 (recommendation that the

State update the law governing anatomical gifts). The initial UAGA was written in 1968.

The purpose of this call is to hear discussion from the ACOT members and, if the Committee chooses, to develop a recommendation from the ACOT to the Secretary concerning the revised UAGA.
