

Dated: January 4, 2007.

Curtis M. Anderson,

Deputy Administrator, Rural Utilities Service.

[FR Doc. E7-205 Filed 1-10-07; 8:45 am]

BILLING CODE 3410-15-P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Earth Resources, Inc.: Notice of Availability of an Environmental Assessment

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of availability of an Environmental Assessment for public review.

SUMMARY: The Rural Utilities Service, an agency which administers the U.S. Department of Agriculture's Rural Development Utilities Programs (USDA Rural Development) has prepared an Environmental Assessment (EA) related to possible financial assistance to Earth Resources, Inc. (ERI) for the proposed construction of Plant Carl, a 20-megawatt electric power generation plant proposed to be built by Earth Resources, Inc. (ERI) in Franklin County, Georgia. ERI is requesting the USDA Rural Development to provide financial assistance for the proposed project.

DATES: Written comments on this Notice must be received on or before February 12, 2007.

ADDRESSES: The EA will be available for public review at the USDA Rural Development, Utilities Programs, 1400 Independence Avenue, SW., Mail Stop 1571, Washington, DC 20250-1571; at the USDA Rural Development's Web site—<http://www.usda.gov/rus/water/ees/ea.htm>; at ERI's headquarters office located at 774 Highway 320, Carnesville, Georgia 30521; and two Franklin County Public Library locations:

Lavonia Carnegie Library, 28 Hartwell Road, Lavonia, Georgia 30553.

Royston Public Library, 684 Franklin Springs Street, Royston, Georgia 30662.

Written comments should be sent to: Ms. Stephanie Strength, Environmental Protection Specialist, USDA, Rural Development, Utilities Programs, Engineering and Environmental Staff, 1400 Independence Avenue, SW., Mail Stop 1571, Washington, DC 20250-1571, or e-mail:

Stephanie.strength@wdc.usda.gov.

FOR FURTHER INFORMATION CONTACT: Stephanie Strength, Environmental Protection Specialist, USDA, Rural

Development, Utilities Programs, Engineering and Environmental Staff, 1400 Independence Avenue, SW., Mail Stop 1571, Washington, DC 20250-1571, Telephone: (202) 720-0468. Ms. Strength's e-mail address is stephanie.strength@wdc.usda.gov.

SUPPLEMENTARY INFORMATION: The proposed project area is located in Franklin County, Georgia. The proposal will be sited on a previously graded five acre portion of a 139-acre property zoned Commercial and Industrial. The proposal includes the generation plant and accessory structures, fuel storage and handling areas, traffic circulation and parking areas, waste holding areas, and stormwater management features. Approximately ten additional acres will be devoted to a spray application water treatment system for which no new clearing and grading will be required. The remaining acres will be maintained as natural area buffers.

Alternatives considered by the USDA Rural Development and ERI included: (a) No action, (b) alternate locations, (c) alternate methods to provide service, (d) alternate construction methods and materials, (e) alternate designs, (f) load management and energy conservation options, and (g) alternate generation technologies. An Environmental Report that described the proposed project in detail and discussed its anticipated environmental impacts has been accepted by USDA Rural Development as the EA for the proposed project. The EA is available for public review at addresses provided above in this Notice.

Questions and comments should be sent to Ms. Stephanie Strength, USDA Rural Development at the mailing or e-mail addresses provided above in this Notice. The USDA Rural Development should receive comments on the EA in writing by February 12, 2007 to ensure that they are considered in the environmental impact determination.

Should the USDA Rural Development determine, based on the EA, that the impacts of the construction and operation of the project would not have a significant environmental impact, it will prepare a Finding of No Significant Impact. Public notification of a Finding of No Significant Impact would be published in the **Federal Register** and in newspapers with circulation in the project area.

Any final action by the USDA Rural Development related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal, State and local environmental laws and regulations, and completion of the environmental review requirements as prescribed in

the USDA Rural Development's Environmental Policies and Procedures (7 CFR part 1794).

Mark S. Plank,

Director, Engineering and Environmental Staff, USDA/Rural Development/Utilities Programs.

BILLING CODE 3410-15-P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Norborne Baseload Plant

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of availability of Draft Environmental Impact Statement and notice of public meetings.

SUMMARY: The Rural Utilities Service (RUS), an agency which administers the U.S. Department of Agriculture's Rural Development Utilities Programs (USDA/RD) is issuing a Draft Environmental Impact Statement (EIS) for the Norborne Baseload Plant (Norborne Plant). The Draft EIS was prepared pursuant to the National Environmental Policy Act of 1969 (NEPA) (U.S.C. 4231 *et seq.*) in accordance with the Council on Environmental Quality (CEQ) regulations for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508) and USDA Rural Utilities Service (RUS) regulations (7 CFR part 1794). The U.S. Army Corps of Engineers is a cooperating agency for this Draft EIS. The purpose of the EIS is to evaluate the potential environmental impacts of and alternatives to the Associated Electric Cooperative, Inc. (AECI) application for a USDA/RD loan to construct the proposed 660 megawatt (MW) coal-fired power plant in Carroll County, Missouri, near the town of Norborne. AECI is proposing to use a coal combustion technology known as supercritical pulverized coal, along with other proposed pollution controls collectively known as Best Available Control Technology (BACT). The primary components of the Proposed Action include the following:

- Power plant and associated facilities and operations, including the plant cooling system, waste management operations, lighting, and fire protection and other safety systems.
- 345-kV substation with associated transmission line modifications and communications facilities.
- New and modified substations.
- Approximately 134 miles of new 345-kV transmission lines to connect with AECI's existing network.

- Water supply system consisting of groundwater wells and associated pipeline.

- Utility waste landfill.
- New rail access from existing mainline railroads.

- Actions to reduce or prevent environmental impacts.

The Proposed Action has been identified as USDA/RD's Preferred Alternative.

DATES: With this notice, USDA/RD invites any affected Federal, State, and local agencies and other interested persons to comment on the Draft EIS. Written comments on this Draft EIS will be accepted for 45 days following publication of the Environmental Protection Agency's notice of availability for this Draft EIS in the **Federal Register**.

USDA/RD will hold public meetings at three locations in February 2007: February 6 at the Knights of Columbus Building, 311 E. Patterson Avenue, Salisbury, MO; February 7 at the Best Western State Fair Inn, South 65 Highway and 32nd Street, Sedalia, MO; and February 8 at the Rupe Community Center, 710 Harvest Hills Road, Carrollton, MO. The meetings will begin at 6:30 p.m. and will include a presentation summarizing the findings of the Draft EIS and the opportunity for attendees to submit both oral and written comments. In accordance with 40 CFR 1503.1, Inviting Comments, the purpose of the meeting will be to solicit comments from interested parties on the Draft EIS for the Norborne Plant. A copy of the Draft EIS can be obtained or viewed online at <http://www.usda.gov/rus/water/ees/eis.htm>. Copies of the Draft EIS will also be available for public review at the following locations (hours vary; contact individual repositories for available times):

Boonslick Regional Library Sedalia Branch, 219 W. 3rd Street, Sedalia, MO 65301, Phone: 660/827-7323.

Boonslick Regional Library, 950 E. Main Street, Warsaw, MO 65355, Phone: 660/438-5211.

Cameron Public Library, 312 N. Chestnut Street, Cameron, MO 64429, Phone: 816/632-2311.

Carnegie Library, 316 Massachusetts Street, St. Joseph, MO 64504, Phone: 816/238-0526.

Carrollton Public Library, 1 N. Folger Street, Carrollton, MO 64633, Phone: 660/542-0183.

Concordia Library, 709 S. Main Street, Concordia, MO 64020, Phone: 660/463-2277.

DeKalb County Public Library, 105 N. Polk Street, Maysville, MO 64469, Phone: 816/449-5695.

Dulany Memorial Library, 501 S. Broadway, Salisbury, MO 65281, Phone: 660/388-5712.

Downtown Library, 927 Felix Street, St. Joseph, MO 64501, Phone: 816/232-7729.

East Hills Library, 502 N. Woodbine Road, Suite A., St. Joseph, MO 64506, Phone: 816/236-2136.

Norborne Public Library, 109 E. Second Street, Norborne, MO 64668, Phone: 660-593-3514.

Oregon Public Library, 103 S. Washington Street, Oregon, MO 64473, Phone: 660/446-3586.

Ray County Library, 215 E. Lexington Street, Richmond, MO 64085, Phone: 816/776-5104.

Rolling Hills Consolidated Library: Eastside, 1904 N. Belt Highway, St. Joseph, MO 64506, Phone: 816/232-5479.

Rolling Hills Consolidated Library: Savannah, 514 W. Main Street, Savannah, MO 64485, Phone: 816/324-4569.

Robertson Memorial Library, 19 W. 20th Street, Higginsville, MO 64037, Phone: 660/584-2880.

Sedalia Public Library, 311 W. Third Street, Sedalia, MO 65301, Phone: 660/826-1314.

Sweet Springs Public Library, 217 Turner Street, Sweet Springs, MO 65351, Phone: 660/335-4314.

Washington Park Library, 1821 N. Third Street, St. Joseph, MO 64505, Phone: 816/232-2052.

ADDRESS FOR FURTHER INFORMATION: To send comments or for more information,

contact: Stephanie A. Strength, USDA, Rural Development, Utilities Programs, 1400 Independence Avenue, SW., Mail Stop 1570, Room 2244, Washington, DC 20250-1570, telephone (202) 720-0468, fax (202) 720-0820, or e-mail: Stephanie.strength@wdc.usda.gov.

SUPPLEMENTARY INFORMATION: AECI is an electric generation and transmission cooperative, a non-profit utility owned by its members. It provides wholesale electricity and related services to six electric generation and transmission cooperatives that in turn provide electricity to 51 distribution cooperatives. AECI's service area includes most of Missouri outside of urban areas, part of northeast Oklahoma, and a small part of southeast Iowa. AECI is contractually obligated to provide all the electric power needs of the cooperative member systems it serves. AECI does not have the capacity to meet all of its members' power needs beyond 2013.

After considering various ways to meet those future needs, AECI identified the construction of a new coal-fired power plant near Norborne, Missouri as its best course of action. This Draft EIS considered 17 technology alternatives, several alternatives that did not include AECI construction of a new baseload plant, adding capacity at an existing AECI facility, and a number of siting alternatives as means of responding to the identified purpose and need for the project. These alternatives were evaluated in terms of cost-effectiveness, technical feasibility, and environmental soundness. The Draft EIS analyzes in detail the Proposed Action (Norborne Plant and related facilities), essentially the same plant and ancillary facilities at a different location (Big Lake Site), an alternative technology (integrated gasification combined cycle (IGCC), and the No Action Alternative. Under the No Action Alternative, the project would not be constructed.

With actions that have been incorporated into the Proposed Action to reduce or avoid impact, no significant adverse impacts are anticipated. Other adverse but non-significant impacts of the Proposed Action include those on soils, water, air, fisheries and wildlife, noise, transportation, floodplains, wetlands, and farmland. Impacts associated with the use of IGCC are similar.

Use of the Big Lake Site would result in impacts similar to those of the Proposed Action for most resources, but, when compared with the Proposed Action, would likely result in greater adverse impacts on floodplains, recreation and public lands and cultural

resources; and potentially significant impacts on fisheries and wildlife (migratory birds), threatened and endangered species (bald eagles), and environmental justice (Native Americans).

AECI's Proposed Action has been identified as USDA/RD's Preferred Alternative. The Preferred Alternative has the potential to have non-significant impacts on wetlands and floodplains.

Any final action by the USDA Rural Development related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal, state and local environmental laws and regulations, and completion of the environmental review requirements as prescribed in the USDA Rural Utilities Services' Environmental Policies and Procedures (7 CFR part 1794).

Dated: December 29, 2006.

James R. Newby,

Assistant Administrator, USDA/Rural Development/Electric Program.

BILLING CODE 3410-15-P

BROADCASTING BOARD OF GOVERNORS

Sunshine Act Meeting

DATE AND TIME: Wednesday, January 10, 2007, 2-3:15 p.m.

PLACE: Cohen Building, Room 3321, 330 Independence Ave., SW., Washington, DC 20237.

CLOSED MEETING: The members of the Broadcasting Board of Governors (BBG) will meet in closed session to review and discuss a number of issues relating to U.S. Government-funded non-military international broadcasting. They will address internal procedural, budgetary, and personnel issues, as well as sensitive foreign policy issues relating to potential options in the U.S. international broadcasting field. This meeting is closed because if open it likely would either disclose matters that would be properly classified to be kept secret in the interest of foreign policy under the appropriate executive order (5 U.S.C. 552b.(c)(1)) or would disclose information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action. (5 U.S.C. 552b.(c)(9)(B)) In addition, part of the discussion will relate solely to the internal personnel and organizational issues of the BBG or the International Broadcasting Bureau. (5 U.S.C. 552b.(c)(2) and (6))

CONTACT PERSON FOR MORE INFORMATION: Persons interested in obtaining more

information should contact Carol Booker at (202) 203-4545.

Dated: January 4, 2007.

Carol Booker,

Legal Counsel.

[FR Doc. 07-96 Filed 1-9-07; 11:50 am]

BILLING CODE 8230-01-M

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Senior Executive Service Performance Review Board

AGENCY: Chemical Safety and Hazard Investigation Board.

ACTION: Notice.

SUMMARY: This notice announces changes in the membership of the Senior Executive Service Performance Review Board for the Chemical Safety and Hazard Investigation Board (CSB).

DATES: Effective January 11, 2007.

FOR FURTHER INFORMATION CONTACT:

Christopher Kirkpatrick, Office of General Counsel, (202) 261-7600.

SUPPLEMENTARY INFORMATION: 5 U.S.C. 4314(c)(1) requires each agency to establish, in accordance with regulations prescribed by the Office of Personnel Management, a performance review board (PRB). The PRB reviews initial performance ratings of members of the Senior Executive Service (SES) and makes recommendations on performance ratings and awards for senior executives. Because the CSB is a small independent Federal agency, the SES members of the CSB's PRB are being drawn from other Federal agencies.

The Chairperson of the CSB has appointed the following individuals to the CSB Senior Executive Service Performance Review Board:

PRB Member—Lawrence W. Roffee (Executive Director, United States Access Board).

PRB Member—Leon A. Wilson, Jr. (Executive Director, Committee for Purchase From People Who Are Blind or Severely Disabled).

The above-named members of the CSB PRB replace Ronald S. Battocchi (formerly General Counsel, National Transportation Safety Board) and Elizabeth S. Woodruff (formerly General Counsel, Federal Retirement Thrift Investment Board), whose service on the PRB has ended. Their appointments were originally announced in the **Federal Register** of December 3, 2004 (69 FR 70224).

John S. Bresland (CSB Board Member) continues as Chair of the PRB, as

announced in the **Federal Register** of October 8, 2003 (68 FR 58063).

This notice is published in the **Federal Register** pursuant to the requirement of 5 U.S.C. 4314(c)(4).

Dated: January 4, 2007.

Raymond C. Porfiri,

Deputy General Counsel.

BILLING CODE 6350-01-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 49-2006]

Foreign-Trade Subzone 133D—Davenport, IA; Expansion of Manufacturing Authority (Articulated Dump Trucks)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Deere & Company (Deere), operator of Subzone 133D, requesting authority for the manufacture of articulated dump trucks under FTZ procedures at the company's construction equipment manufacturing plant in Davenport, Iowa. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on December 28, 2006.

Subzone 133D (2.2 million square feet, 1,300 employees) was approved by the Board in 2001 at one site located at Highway 61 and Mt. Joy Road in Davenport (Board Order 1180, 66 FR 40673, 8/3/01). Deere's original manufacturing authority was granted for the manufacture of construction equipment (four-wheel-drive loaders, motor graders and wheeled log skidders). Deere is now requesting authority to manufacture up to several hundred articulated dump trucks (also known as haulers) annually under zone procedures. The company indicates that the foreign inputs that may be admitted under FTZ procedures include transmissions, axles, gear boxes, cabs and engines. Duty rates on the proposed imported components currently range from 2.5 to 4.0 percent.

This application requests authority for Deere to conduct the activity under FTZ procedures, which would exempt Deere from Customs duty payments on the foreign components used in export production. Approximately 12 percent of production is exported. On domestic sales, the company could choose the lower duty rate that applies to the finished product (duty free) for the
