

regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** These standards apply to owners or operators of each existing and new taconite iron ore processing plant that is a major source of hazardous air pollutant (HAP) if it emits or has the potential to emit any single HAP at a rate of 10 tons or more per year or any combination of HAP at a rate of 25 tons or more per year. The effective sources in this subpart covers emissions from ore crushing and handling emission units, ore dryer stacks, indurating furnace stacks, finished pellet handling emission units, and fugitive dust emissions.

Owners or operators of such facilities must provide EPA, or the delegated state regulatory authority, with initial notifications, performance tests, and periodic reports. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction (SSM) in the operation of an affected facility, or any period during which the monitoring system is inoperative. The responses to this information collection are mandatory under Clean Air Act section 112 and 40 CFR part 63, subpart RRRRR.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information are estimated to average approximately 18 hours, per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources;

complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Taconite Iron Ore Processing.

**Estimated Number of Respondents:** 8.  
**Frequency of Response:** Initially and semiannually.

**Estimated Total Annual Hour Burden:** 408.

**Estimated Total Costs:** \$491,997, which includes \$0 annualized Capital Startup Costs; \$257,600 annualized Operations & Maintenance (O&M); and \$234,397 annualized Labor Costs.

**Changes in the Estimates:** There is a decrease of 864 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The decrease in burden is due mainly to the fact that within the past three years the respondent completed those activities that are required to achieve initial compliance, hence, the initial costs to comply differs from the costs to comply continuously with the standard. There are also no new sources expected over the three year period of this ICR.

There is a decrease in the capital/startup vs. operation and maintenance (O&M) Cost, this change could be attributed to the fact that there are no new sources, and only O&M is accounted for in this ICR.

Dated: January 8, 2007.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2006-0438; FRL-8270-8]

### Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for the Printing and Publishing Industry (Renewal), EPA ICR Number 1739.05, OMB Control Number 2060-0335

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR, which is abstracted below, describes the

nature of the information collection and its estimated burden and cost.

**DATES:** Additional comments may be submitted on or before February 20, 2007.

**ADDRESSES:** Submit your comments, referencing Docket ID number EPA-HQ-OECA-2006-0438, to (1) EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

#### FOR FURTHER INFORMATION CONTACT:

Learia Williams, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: [williams.learia@epa.gov](mailto:williams.learia@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 21, 2006 (71 FR 35652), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID Number EPA-HQ-OECA-2006-0438, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket Center is (202) 566-1927.

Use EPA's electronic docket and comment system at [www.regulations.gov](http://www.regulations.gov), to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in

the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at [www.regulations.gov](http://www.regulations.gov), as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to [www.regulations.gov](http://www.regulations.gov).

*Title:* NESHAP for the Printing and Publishing Industry (Renewal).

*ICR Numbers:* EPA ICR Number 1739.05, OMB Control Number 2060-0335.

*ICR Status:* This ICR is scheduled to expire on January 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* The Maximum Achievable Control Technology (NESHAP) for the Printing and Publishing Industry were promulgated on May 30, 1996 (61 FR 27131). These standards apply to the following facilities in 40 CFR part 63, subpart KK: publication rotogravure, product and packaging rotogravure, and wide-web flexographic printing presses at major sources. The effective date was May 30, 1999, for sources existing on May 30, 1996. For new sources or reconstructed sources after May 30, 1996, the effective date of startup is May 30, 1996, whichever is later.

These standards of performance for this category of major sources and area sources of hazardous air pollutants are required by section 112 of the Clean Air Act. Facilities may meet the standards by materials substitution, by installing control devices, or by a combination of both. The information that is required to be submitted to the Agency or kept at the facility is needed to insure compliance with the regulation. These include initial one time notifications, performance test plans and reports and records of maintenance and shutdown,

startup, and malfunctions. The required notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated, leaks are being detected and repaired and the standard is being met. Performance test reports are needed as these are the Agency's records of a source's initial capability to comply with the emission standard, and serve as a record of the operating conditions under which compliance was achieved. For facilities that install continuous monitoring systems (CMS) there are performance test and maintenance reports. Excess emissions reports are submitted semiannually. Responses to the information collection are mandatory under Clean Air Act section 112 and 40 CFR part 63, subpart KK. The responses are not anticipated to be kept confidential due to the nature of the information collected; however, any information submitted to the Agency for which claim of confidentiality is made will be safeguarded according to the Agency policy set forth in 40 CFR part 2.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information are estimated to average 100 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Owners or operators of publication rotogravure, product and packaging rotogravure, or wide-web flexographic printing presses.

*Estimated Number of Respondents:* 352.

*Frequency of Response:* Initially, on occasion, and semiannually.

*Estimated Total Annual Hour Burden:* 50,796.

*Estimated Total Capital and Operations & Maintenance (O&M) Annual Costs:* \$412,000, which includes

\$7,000 annualized capital/startup costs and \$405,000 annual O&M costs.

*Changes in the Estimates:* There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR and there is no change in burden to industry.

Dated: January 8, 2007.

## ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-6683-3]

### Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 7, 2006 (71 FR 17845).

#### Draft EISs

EIS No. 20060402, ERP No. D-NOA-K39102-CA, Cordell Bank, Gulf of the Farallones and Monterey Bay National Marine Sanctuaries, Proposes a Series of Regulatory Changes, Offshore of Northern/Central, CA.

*Summary:* EPA does not object to the proposed project. Rating LO.

EIS No. 20060461, ERP No. D-USN-E11061-FL, Boca Chica Field, Restoration of Clear Zones and Stormwater Drainage Systems, Implementation, Naval Air Station (NAS) Key West, Monroe County, FL.

*Summary:* EPA expressed environmental concerns about wetlands and mangrove forest impacts. EPA recommended that the final document include an analysis of the
