

Proposed Rules

Federal Register

Vol. 72, No. 12

Friday, January 19, 2007

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 51

[Docket No. PRM-51-10]

Massachusetts Attorney General; Receipt of Petition for Rulemaking; Reopening of Public Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Petition for rulemaking; reopening of public comment period.

SUMMARY: On November 1, 2006 (71 FR 64169), the Nuclear Regulatory Commission (NRC) published for public comment a notice of receipt of a petition for rulemaking, dated August 25, 2006, which was filed with the Commission by Diane Curran on behalf of the Massachusetts Attorney General. The petition was docketed by the NRC on September 19, 2006, and has been assigned Docket No. PRM-51-10. On December 15, 2006, several external stakeholder groups requested a 60 day extension of the public comment period owing to the importance of the rulemaking, the voluminous technical documents that require careful review, and the occurrence of major national events (elections) and holidays (Thanksgiving, Christmas, Hanukkah, and New Years celebrations) during the comment period which limits the time available for stakeholders to comment. The NRC is reopening the comment period on the petition for an additional 60 days from the original January 16, 2007 deadline. The comment period closes on March 19, 2007.

DATES: The comment period has been reopened and now expires on March 19, 2007. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments on this petition by any one of the following methods. Please include PRM-51-10 in the subject line of your

comments. Comments on petitions submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

Airworthiness Directives; Airbus Model A310 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to supersede an existing airworthiness directive (AD) that applies to all Airbus Model A310 series airplanes. The existing AD currently requires inspections of the lower door surrounding structure to detect cracks and corrosion; inspections to detect cracking of the holes of the corner doublers, the fail-safe ring, and the door frames of the door structures; and repair if necessary. The existing AD also provides for optional terminating action for certain inspections. This proposed AD would retain all requirements of the existing AD, mandate the previously optional terminating action, and reduce the applicability of the existing AD.
