BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

The Data Measures, Data Composites, and National Standards To Be Used in the Child and Family Services Reviews; Corrections

AGENCY: Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, Department of Health and Human Services.

ACTION: Notice; corrections.

SUMMARY: The Administration for Children and Families (ACF) published a notice in the **Federal Register** of June 7, 2006 (Vol. 71, No. 109), pages 32969-32987, presenting the data measures, data composites, and national standards to be used in the Child and Family Services Review (CFSR). This notice provides corrections to this notice. A consolidated version of the June 7 **Federal Register** Announcement incorporating these corrections is provided on the Children's Bureau's

Web site (address). The following are the key changes in the document and the reasons for the changes:

- *There are new specifications for each of the individual measures included in each composite.* After publication of the June 7, **Federal Register** Announcement, ACF conducted trainings on the CFSR data indicators at each of the 10 ACF Regional Offices. The trainings were provided to key administrators and staff of State child welfare agencies. During these trainings, issues were identified and questions were raised regarding the individual measures included in the composite. After reviewing these issues and questions, ACF determined that more specific information about the measures was needed and that some measures required revision in order to better target the outcome being assessed. The increased specification includes using the precise terminology that is used in the Adoption and Foster Care Analysis and Reporting System (AFCARS) and describing in greater detail the children who are in the denominator and numerator of each measure. The revisions to some of the measures required changes in the syntax used to calculate the measures.

- *There is a new definition of foster parent used by the National Child Abuse and Neglect Data System (NCANDS).* The change was made in this definition because the definition of a foster parent used by NCANDS was recently revised.

- *There is a new version of the table of ranges, percentiles, and national standards for the data indicators and measures to be used in the second round of the Child and Family Services Review.* This table replaces the Table 1 provided in the June 7, 2006 **Federal Register**. It was revised to reflect new data and new national standards for all of the CFSR data indicators. The data in the table and the national standards for all of the data indicators and measures are different than those presented in the June 7 **Federal Register** notice. This difference is due to one or both of the following reasons: (1) A change in the syntax for calculating some of the measures, and (2) a change in the process for calculating the national standards. The reason for the change in the procedures for calculating the national standards is provided in the following bullet.

- *There are revisions and corrections to Attachment B: Methodology for Developing the Composites.* The revisions in Attachment B were made to (1) correct an error in the original attachment B, (2) provide the new coefficients (weights) for the composite
