

Abstract: The Safe, Accountable, Flexible Efficient Transportation Equity Act—A Legacy for Users (SAFETEA—LU; H.R. 3, Section 5601) requires the BTS to provide “data, statistics, and analysis to transportation decision-makers” and to ensure that the statistics “are designed to support transportation decision-making by the Federal Government, State and local governments, metropolitan planning organizations, transportation-related associations, the private sector (including the freight community), and the public.” The Survey of State Funding for Public Transportation provides data that are used to create an annual summary report of state funding for transit in the 50 states and the District of Columbia. Each state DOT will provide the source of funding for transit programs (e.g., gas tax, sales tax, license fees), the programs funded (e.g., bus operations, rail operations), the amount of funding per program, the eligible uses for the funding (capital expenses, operating expenses, both), and how funds are distributed (discretionary, formula-based). The information in this report is widely used and is requested by Congress, state legislatures and local governing bodies. The information is useful in showing state comparisons in types of public transportation programs as well as commitment to fund public transportation capital and operating costs.

ADDRESSES: The agency seeks public comments on its proposed information collection. Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725–17th Street, NW., Washington, DC 20503, Attention: RITA Desk Officer.
