SUPPLEMENTARY INFORMATION:

I. Why Is EPA Issuing This Proposed Rule?

This document proposes to take action on SIP revisions pertaining to the El Paso area. We have published a direct final rule approving the State's SIP revisions in the "Rules and Regulations" section of this **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this action in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment, we will withdraw the direct final rule and it will not take effect. We would address all public comments in any subsequent final rule based on this proposed rule.

We do not intend to institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information, please see the information provided in the **ADDRESSES** section of this document.

Dated: January 11, 2007.

Richard E. Greene,

Acting Regional Administrator, Region 6.

BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-D-7688]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more

stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act.

This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

[Docket OST 2007 26829]

RIN 2105-AB87

Transportation for Individuals With Disabilities: Passenger Vessels

AGENCY: Department of Transportation, Office of the Secretary.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department is proposing to issue a new Americans with Disabilities Act (ADA) rule to ensure nondiscrimination on the basis of disability by passenger vessels. This notice of proposed rulemaking (NPRM) concerns service and policy issues. Issues concerning physical accessibility standards will be addressed at a later time, in conjunction with proposed passenger vessel accessibility guidelines drafted by the Access Board.

Comment Closing Date: Comments should be submitted by April 23, 2007. Late-filed comments will be considered to the extent practicable.

ADDRESSES: You may submit comments identified by the docket number [OST 2007-26829] by any of the following methods:

SUPPLEMENTARY INFORMATION: The Department of Transportation has issued rules concerning nondiscrimination on the basis of disability for almost every mode of passenger transportation, including public transportation (bus, subway, commuter rail), over-the-road buses, intercity rail, and air transportation. The only mode on which the Department has yet to propose rules is transportation by passenger vessels. With this NPRM, the Department is beginning the process of filling this remaining gap in our coverage of transportation for individuals with disabilities.

Background

When the Department issued its first Americans with Disabilities Act (ADA) rules in 1991, we explicitly asserted coverage over passenger vessels. The Department reserved action on passenger vessels in the regulatory text of this final rule, and we made the following statements on the subject in the preamble (56 FR 45599-45560; September 6, 1991):

Ferries and passenger vessels operated by public entities are covered by the ADA, and subject at this time to DOJ Title II requirements as well as § 37.5 of this Part * * *. We anticipate further rulemaking to create appropriate requirements for passenger vessels * * *. The reason for this action is that, at the present time, the Department lacks sufficient information to determine what are reasonable accessibility requirements for various kinds of passenger vessels. We note that the DOJ has determined that passenger vessels encompassing places of public accommodation (e.g., cruise ships, floating restaurants) are subject to the general nondiscrimination and policies and practices portions of its Title III rule (Subparts B and C of 28 CFR Part 36). The Department of Transportation anticipates working with the Access Board and DOJ on further rulemaking to define requirements for passenger vessels * * *. The Department does want to make clear its view that the ADA does cover passenger vessels, including ferries,

excursion vessels, sightseeing vessels, floating restaurants, cruise ships, and others. Cruise ships are a particularly interesting example of vessels subject to ADA coverage.

Cruise ships are a unique mode of transportation. Cruise ships are self-contained floating communities. In addition to transporting passengers, cruise ships house, feed, and entertain passengers and thus take on aspects of public accommodations. Therefore cruise ships appear to be a hybrid of a transportation service and a public accommodation. As noted above, DOJ covers cruise ships as public accommodations under its Title III rules.

In addition to being public accommodations, cruise ships clearly are within the scope of a "specified public transportation service." The ADA prohibits discrimination in the full and equal enjoyment of specified public transportation services provided by a private entity that is primarily engaged in the business of transporting people and whose operations affect commerce (§ 304(a)). "Specified public transportation" is defined by § 301(10) as "transportation by bus, rail, or any other conveyance (other than by aircraft) that provides the general public with general or special service (including charter service) on a regular and continuing basis."

Cruise ships easily meet the definition of "specified public transportation." Cruise ships are used almost exclusively for transporting passengers and no one doubts that their operations affect commerce. Cruise ships operate according to set schedules or for charter and their services are offered to the general public. Finally, despite some seasonal variations, their services are offered on a regular and continuing basis.

Virtually all cruise ships serving U.S. ports are foreign-flag vessels. International law clearly allows the U.S. to exercise jurisdiction over foreign-flag vessels while they are in U.S. ports, subject to treaty obligations. A state has complete sovereignty over its internal waters, including ports. Therefore, once a commercial ship voluntarily enters a port, it becomes subject to the jurisdiction of the coastal state. In addition, a state may condition the entry of a foreign ship into its internal waters or ports on compliance with its laws and regulations. The United States thus appears to have jurisdiction to apply ADA requirements to foreign-flag cruise ships that call in U.S. ports.

The U.S. Supreme Court recently affirmed the Department's long-held view that the ADA covers passenger vessels, specifically including foreign-flag cruise ships. In *Spector et al. v. Norwegian Cruise Lines*, 545 U.S. 119 (2005), the Court held that cruise ships are "public accommodations" that provide "specified public transportation" within the meaning of the ADA. The Court said that, while there may be some limitations on the coverage of the ADA to matters purely concerning the internal affairs of a foreign-flag vessel, matters concerning
