

Notices

Federal Register

Vol. 72, No. 16

Thursday, January 25, 2007

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Information Collection; Annual Wildfire Summary Report

AGENCY: Forest Service, USDA.

ACTION: Notice of request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on the extension of a currently approved information collection; Annual Wildfire Summary Report.

DATES: Comments must be received in writing on or before March 26, 2007 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Comments concerning this notice should be addressed to Karyn Wood, Assistant Director for Fire Operations, National Interagency Fire Center, Forest Service, USDA, 3833 S. Development Avenue, Boise, ID 83705.

Comments also may be submitted via facsimile to (208) 387-5971 or by e-mail to: klwood@fs.fed.us.

The public may inspect comments received at National Interagency Fire Center, 3833 S. Development Avenue, Boise, ID during normal business hours. Visitors are encouraged to call ahead to (208) 387-5604 to facilitate entry to the building.

FOR FURTHER INFORMATION CONTACT: Karyn Wood, Assistant Director for Fire Operations, National Interagency Fire Center, (208) 387-5605. Individuals who use TDD may call the Federal Relay Service (FRS) at 1-800-877-8339, 24 hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION:

Title: Annual Wildfire Summary Report.

OMB Number: 0596-0025.

Expiration Date of Approval: June 30, 2007.

Type of Request: Extension of a currently approved collection.

Abstract: The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 (note) Sec. 10) requires the Forest Service to collect information about wildfire suppression efforts by state and local fire fighting agencies in order to support specific congressional funding requests for the Forest Service State and Private Forestry Cooperative Fire Program. The program provides supplemental funding for state and local fire fighting agencies. The Forest Service works cooperatively with state and local fire fighting agencies to support their fire suppression efforts.

State fire marshals use FS-3100-8 (Annual Wildfire Summary Report) to collect information for the Forest Service regarding state and local wildfire suppression efforts. Without this information, the Forest Service would be unable to assess the effectiveness of the State and Private Forestry Cooperative Fire Program. Forest Service managers evaluate the information to determine if the Cooperative Fire Program funds used by state and local fire agencies have improved fire suppression capabilities. The Forest Service shares the information with Congress as part of the annual request for funding for this program.

The information collected includes the number of fires responded to by state or local fire fighting agencies within a fiscal year, as well as the following information pertaining to such fires:

- Fire type (timber, structural, or grassland),
- Size (in acres) of the fires,
- Cause of fires (lightning, campfires, arson, etc.), and
- Suppression costs associated with the fires.

The data gathered is not available from other sources.

Estimate of Annual Burden: 30 minutes.

Type of Respondents: State fire marshals.

Estimated Annual Number of Respondents: 50.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 25 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Date: January 17, 2007.

Robin L. Thompson,

Associate Deputy Chief, State and Private Forestry.

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

Forest Service

Scriver Creek Integrated Restoration Project, Boise National Forest, ID

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare Environmental Impact Statement.

SUMMARY: The Emmett Ranger District of the Boise National Forest will prepare an environmental impact statement (EIS) for a resource management project in the Scriver Creek drainage. The entire project area is located in watersheds that drain into the Middle Fork Payette River. The 11,500-acre project area is located approximately 6 miles north of Crouch, Idaho.

The agency invites written comments and suggestions on the scope of the analysis. The agency also hereby gives notice of the environmental analysis and decisionmaking process that will occur on the proposal so interested and affected people are aware of how they

may participate and contribute to final decision. At this time, no public meetings to discuss the project are planned.

Proposed Action: Three purposes have been identified for the project: (1) Modify stand density, structure, species composition, and surface fuels to restore suitable white-headed woodpecker and flammulated owl habitat, in addition to providing forest conditions that are more resistant to insects, disease and wildfire; (2) initiate watershed restoration within the Scriver Creek 6th Field hydrologic unit (subwatershed) to improve watershed conditions and reduce long-term sedimentation caused by existing roads, in addition to reducing road-related impacts to wildlife, fish, soil, and water resources; (3) provide commercial timber that supports local and/or regional sawmills, employment, and economies.

The Proposed Action would implement silvicultural activities, including thinning of commercial trees on 2,826 acres (570 acres of commercial thinning, 1,445 acres of commercial thinning followed by prescribed fire, and 811 acres of commercial thinning followed by machine pile and burning). An estimated 928 acres would be harvested with off-road jammer/tractor, 870 acres would be skyline logged and a helicopter would harvest about 1,028 acres. The Proposed Action would employ silvicultural prescriptions including commercial thin, and thinning of submerchantable trees occurring naturally and within about 846 acres of existing plantations.

Approximately 16.5 miles of road would be decommissioned, of which an estimated 0.7 mile or road would be decommissioned while leaving the existing drainage and road prism sufficient for a future motorized trail. Approximately 16.1 miles of road improvement on National Forest System (NFS) roads 693, 6930, 695B, and 696 would take place. Roughly 2.4 miles of new specified road and approximately 1.1 miles of temporary road would be constructed to facilitate harvest activities. Approximately 3.8 miles of NFS roads 696 and 693B would be realigned to eliminate roads and road segments paralleling within Riparian Conservation Area (RCA) corridors, and 1.3 miles of NFS road 693A would be reconstructed. Fish passage would be restored by replacing or removing the existing culvert on NFS road 693A and two culverts on NFS roads 693 and 695 would be replaced with fish passable structures. All perennial crossings would have up to 300 feet of surface gravel applied on both sides of the crossing on those roads used in

conjunction with timber harvest (except for roads to be decommissioned). Twelve helicopter landings would be developed. Except for administrative use, about 20.5 miles of authorized roads would be closed year-round to motorized use after vegetation treatments are complete.

Preliminary Issues: Preliminary concerns with the Proposed Action include potential impacts on water quality and terrestrial wildlife species.

Possible Alternatives to the Proposed Action: One alternative to the Proposed Action that has been discussed thus far is a No Action alternative. Other alternatives will likely be developed as issues are identified and information received.

Decisions to be Made: The Boise National Forest Supervisor will decide the following: (1) Should vegetation be managed within the project area at this time, and if so, which stands should be treated and what silvicultural systems applied? (2) Should roads be built at this time, and if so, how many miles should be built and where should they occur within the project area? (3) Should identified road maintenance activities occur at this time? (4) Should road decommissioning and realignment take place and which roads and how would this happen? (5) What design features, mitigation measures, and/or monitoring should be applied to the project?

DATES: Comments concerning the proposed project and analysis are encouraged and should be postmarked or received within 30 days following publication of this announcement in the **Federal Register**.

ADDRESSES: Comments should be addressed to the Emmett Ranger District, ATTN: Ann Roseberry, 1805 Highway 16, Room No. 5, Emmett, ID 83617; or sent electronically to comments-intermnt-boise-emmett@fs.fed.us. Electronic comments must be submitted in plain text or another format compatible with Microsoft Word. Comments may also be delivered to the above address during regular business hours of 8 a.m. to 4:30 p.m. Monday-Friday. Comments can also be submitted by phone at 208-365-7000 or fax to 208-365-7037. Comments received in response to this request will be available for public inspection and will be released in their entirety if requested pursuant to the Freedom of Information Act.

FOR FURTHER INFORMATION CONTACT: Further information can be obtained from Ann Roseberry at the address mentioned above or by calling 208-365-7000.

Schedule: Draft Environmental Impact Statement (DEIS), July 2007. Final Environmental Impact Statement (FEIS), December 2007.

SUPPLEMENTARY INFORMATION: The entire project area drains into the Middle Fork Payette River and, although there are no 303(d)/305(b) listed streams within the project area, Scriver Creek drains to a segment of the Middle Fork Payette River, which is currently listed in Section 4a, Impaired Waterbodies with a TMDL complete for sediment (Idaho, State of, 1998a). A TMDL is currently in place and addresses the entire length of the Middle Fork Payette River.

The entire project area lies within Management Area 14 (Lower Middle Fork Payette River), discussed on pages III-254 through III-265 in the Boise National Forest Land and Resource Management Plan (Forest Plan). Several Management Prescription Categories (MPCs) apply within this management area. However, only MPC 5.2 occurs within the project area. The Proposed Action includes management activities within MPC 5.2 only.

The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of the DEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the DEIS stage but are not raised until after completion of the FEIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F. 2d 1016, 1002 (9th Cir., 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the DEIS 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the FEIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or

chapters of the draft statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Responsible Official: Richard A. Smith, Forest Supervisor, Boise National Forest, 1249 South Vinnell Way, Suite 200, Boise, ID 83709.

Dated: January 18, 2007.

Richard A. Smith,

Forest Supervisor.

BILLING CODE 3410–11–M

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Sunshine Act Notice

The Board of Directors of the Corporation for National and Community Service gives notice of the following meeting:

DATE AND TIME: Wednesday, February 7, 2007, 9:30 a.m.–12 p.m.

PLACE: Corporation for National and Community Service, 8th Floor, 1201 New York Avenue, NW., Washington, DC 20525.

STATUS: Open.

MATTERS TO BE CONSIDERED:

- I. Chair's Opening Remarks.
- II. Consideration of Prior Meeting's Minutes.
- III. Committee Reports.
- IV. CEO Report.
- V. Panel on Engaging College Students in Community Service.
- VI. Public Comment.

ACCOMMODATIONS: Anyone who needs an interpreter or other accommodation should notify the Corporation's contact person by 5 p.m. Monday, February 5, 2007.

FOR FURTHER INFORMATION CONTACT: David Premo, Public Affairs Associate, Public Affairs, Corporation for National and Community Service, 10th Floor, Room 10302E, 1201 New York Avenue, NW., Washington, DC 20525. Phone (202) 606–6717. Fax (202) 606–3460. TDD: (202) 606–3472. E-mail: dpremo@cns.gov.

Dated: January 22, 2007.

Frank R. Trinity,

General Counsel.

BILLING CODE 6050–\$–P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before March 26, 2007.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: January 18, 2007.

Angela C. Arrington,

IC Clearance Official, Regulatory Information Management Services, Office of Management.

Office of Postsecondary Education

Type of Review: Revision.

Title: Annual Performance Report for Title III and Title V Grantees.

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 762.

Burden Hours: 15,334.

Abstract: Titles III and V of the HEA provide discretionary and formula grant programs that make competitive awards to eligible Institutions of Higher Education and organizations (Title III, Part E) to assist these institutions in expanding their capacity to serve minority and low-income students. Grantees submit a yearly performance report to demonstrate that substantial progress is being made towards meeting the objectives of their project. The driving force for these changes to the Annual Performance Report (APR) is the Government Accountability Office. The Government Accountability Office, in GAO–03–900 “Distance Education: More Data Could Improve Education's Ability to Track Technology at Minority Serving Institutions,” found that, “the Department of Education can further refine its programs for monitoring technology usage at minority serving institutions.”

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the “Browse Pending Collections” link and by clicking on link number 3270. When you access the information collection, click on “Download Attachments” to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202–4700. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202–245–6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.
