Approval and Promulgation of Air Quality Implementation Plans; Indiana; Exemption From VOC Requirements for Sources Subject to the National Emission Standards for Hazardous Air Pollutants for Boat Manufacturing or Reinforced Plastics Composites Manufacturing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On July 17, 2006, the Indiana Department of Environmental Management (IDEM) submitted an amendment to its volatile organic compound (VOC) rules for new facilities for approval into the Indiana State Implementation Plan (SIP). This amended rule exempts facilities subject to the boat manufacturing and reinforced plastics composites production national emission standards for hazardous air pollutants (NESHAPS) from the Indiana SIP. This rule revision is approvable because the hazardous air pollutant covered by these NESHAPS rules is styrene, which is always used and is also a VOC. Therefore, the VOC control requirements in these rules are always applicable. In addition, the provisions in these rules are enforceable and result in a clearly defined level of VOC reductions dependent upon the specific type of operation.
