

Negative Determinations for Alternative Trade Adjustment Assistance

In the following cases, it has been determined that the requirements of 246(a)(3)(A)(ii) have not been met for the reasons specified.

The Department has determined that criterion (1) of Section 246 has not been met. Workers at the firm are 50 years of age or older.

None.

The Department has determined that criterion (2) of Section 246 has not been met. Workers at the firm possess skills that are easily transferable.

TA-W-60,620; Point Technologies, a Subsidiary of Angiotech Pharmaceuticals, Wheeling, IL.

The Department has determined that criterion (3) of Section 246 has not been met. Competition conditions within the workers' industry are not adverse.

None.

Negative Determinations for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In the following cases, the investigation revealed that the eligibility criteria for worker adjustment assistance have not been met for the reasons specified.

Because the workers of the firm are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

The investigation revealed that criteria (a)(2)(A)(I.A.) and (a)(2)(B)(II.A.) (employment decline) have not been met.

TA-W-60,485; Lockheed Martin, Operations Manufacturing Group, Orlando, FL.

TA-W-60,595; Berkline Benchcraft, LLC, Blue Mountain, MS.

The investigation revealed that criteria (a)(2)(A)(I.B.) (Sales or production, or both, did not decline) and (a)(2)(B)(II.B.) (shift in production to a foreign country) have not been met.

TA-W-60,549; Blue Holdings, Inc., Commerce, CA.

TA-W-60,693; Continental Connector Co., A Subsidiary ASC Group, Inc., Bloomfield, NJ.

The investigation revealed that criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.B.) (shift in production to a foreign country) have not been met.

TA-W-59,974; Delphi Corporation, Automotive Holdings Group, New Brunswick, NJ.

TA-W-60,229; City Machine Tool and Die Co., Inc., Muncie, IN.

TA-W-60,420; Mesick Precision Co., Inc., Mesick, MI.

TA-W-60,519; Sun Chemical Corporation, Flush Department, Muskegon, MI.

TA-W-60,524; Eaton Paperboard Convertors, Booneville, MS.

TA-W-60,614; Weyerhaeuser Bardcor, CBPR Division, West Memphis, AR.

The investigation revealed that the predominate cause of worker separations is unrelated to criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.C.) (shift in production to a foreign country under a free trade agreement or a beneficiary country under a preferential trade agreement, or there has been or is likely to be an increase in imports).

None.

The workers' firm does not produce an article as required for certification under Section 222 of the Trade Act of 1974.

TA-W-60,477; American Uniform Company, Headquarters Cleveland, Cleveland, TN.

TA-W-60,551; Haggar Clothing Company, Technical Design Division, Dallas, TX.

TA-W-60,558; Supervalu, Inc., Pleasant Prairie Distribution Center, Pleasant Prairie, WI.

TA-W-60,574; Finegood Moldings, Inc., Carson, CA.

TA-W-60,581; Jeanne Skin Care Cosmetics, Ltd., New York, NY.

The investigation revealed that criteria of Section 222(b)(2) has not been met. The workers' firm (or subdivision) is not a supplier to or a downstream producer for a firm whose workers were certified eligible to apply for TAA.

None.

I hereby certify that the aforementioned determinations were issued during the period of January 8 through January 12, 2007. Copies of these determinations are available for inspection in Room C-5311, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210 during normal business hours or will be mailed to persons who write to the above address.

Dated: January 18, 2007.

Ralph Dibattista,

Director, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment and Training Administration

America's Job Bank

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The U.S. Department of Labor's (USDOL) Employment and

Training Administration (ETA) intends to provide hyperlinks to Web sites to aid customers to find an alternative job bank when America's Job Bank (AJB) is phased out on June 30, 2007. ETA is issuing this notice to solicit information from private-sector job bank Web sites interested in applying to be included in the list of Web links.

DATES: All interested parties are asked to submit the information requested in this notice at the Web site: <http://www.ajbtransition.org>. Information must be submitted no later than February 26, 2007.

ADDRESSES: Address all comments concerning this notice to Anthony D. Dais, U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue, NW., Room S-4231, Washington, DC 20210; or e-mail ajbtransition@dol.gov; or transmit via fax at 202-693-3015 (this is not a toll-free number).

FOR FURTHER INFORMATION CONTACT: Anthony D. Dais, at telephone number 202-693-2650 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: ETA's transition plan for the phase-out of AJB includes developing the ability to direct employers and job seekers to both public and private sector job banks. This will be accomplished by providing a 'list of Web links' to qualified Web sites during the AJB phase-out period. The 'list of Web links' (to include all state workforce agency job banks) will be available for a period of time both before and after the phase-out of AJB on June 30, 2007. ETA will select Web sites to be included in the list of links from applications meeting the requirements of this notice. ETA reserves the right to use the listings for multiple Federal purposes, to edit, and to remove the 'list of Web links' at its sole discretion.

Solicitation for Information About Private, and Non-Profit Sector Job Banks

Organizations that operate private and/or non-profit sector job banks or bulletin boards that wish to be considered for inclusion on the 'list of Web links' are invited to provide information about the services they provide.

1. Mandatory Requirements. ETA will only consider for inclusion on this list, a job bank or bulletin board that provides information about the following mandatory requirements:

- Is available via the Internet;
- Is national in scope, accepting job orders and resumes from all employers and job seekers in all States and

Territories and accepting job orders from all occupational categories and industries;

- Has been in the business of providing job bank services over the Internet for at least the past 18 months;
- Does not require a registration fee or membership fee for job seekers to search for jobs;
- Has a state or federal employer identification number (EIN); and
- Offers functionality similar to that currently provided by AJB:
 - Accepts job orders from employers;
 - Accepts resumes from job seekers at no cost;
 - Provides matching capability between job seeker resumes and employer job postings at no cost to the job seeker;
 - Provides the ability for a 'geographical location or area specific' search;
 - Monitors job postings to assure there are no discriminatory language or requirements; and
 - Provides feedback to job posting organizations that their jobs have been accepted and posted to the Web site.

2. Additional Information. To help job seekers and employers understand the services offered, private and non-profit job bank or bulletin board organizations must provide additional information. To be included in the list of Web hyperlinks a job bank or bulletin board must provide information about the availability of the services listed below:

- Machine language translation services for Spanish speakers;
- "Job Scout" capability;
- Compliance with section 508 of the Americans with Disabilities Act; and
- Specialized service to:
 - Veterans, transitioning military service members and military spouses;
 - Youth;
 - Mature workers;
 - Migrant and seasonal farmworkers; and
 - Other (please specify).

In order to be considered for inclusion on the 'list of Web links', an organization operating a job bank or bulletin board must meet all mandatory requirements and must respond to all of the "additional information" questions. Submittals that do not address the mandatory requirements and the additional information functionality questions will not be considered for inclusion. Please note, however, that the information provided regarding the "additional information" questions is not used to disqualify a site, but will be used to provide helpful information to those seeking information about alternatives to AJB. Information must be submitted at the www.ajbtransition.org

web site no later than close of business February 26, 2007. State workforce agencies need not respond to this notice to be included in the job bank listing. States have already submitted information to ETA and the State's AJB transition coordinator can provide updated information at any time.

Solicitation for Information About Internet Gateway or Portal Sites

Organizations that operate portal or gateway Web sites that provide information about Job Banks (Public, Private, National, Regional, Niche); Recruiting Services and Directories; and Recruiters are invited to provide information about the services they provide.

1. Mandatory Requirements. To be considered for inclusion on the 'list of Web links', a portal site must:

- Be available via the Internet;
- Be national in scope;
- Have been in business providing job bank portal information services over the Internet for at least the past 18 months;
- Not require a registration fee or membership fee for job seekers to search for job search assistance;
- Have a state or federal employer identification number; and

2. Additional Information. To help job seekers and employers navigate the many portal sites included in the 'list of Web links', portal sites must provide additional information including, but not limited to, the following:

- Machine language translation services for Spanish speakers;
- Compliance with section 508 of the Americans with Disabilities Act;
- Specialized service to:
 - Veterans, transitioning military service members and military spouses;
 - Youth;
 - Mature workers;
 - Migrant and seasonal farmworkers;
 - Business/Trade Associations or organizations; and
 - Other (please specify).

In order to be considered for inclusion on the 'list of Web links', an organization operating a portal or gateway site must meet all mandatory requirements and must respond to all of the "additional information" questions. Submittals that do not address the mandatory requirements and the additional information functionality questions will not be considered for inclusion. Please note, however, that the information provided to the "additional information" questions is not used to disqualify a site, but will be used to provide helpful information to those seeking information about alternatives to AJB. Information must be submitted

at the www.ajbtransition.org Web site no later than close of business February 26, 2007.

Each submittal from either a job board or portal site organization must include an attestation that the information provided is true and accurate. This attestation must be from an organizational representative who has the authority to represent the organization. The attestation must clearly identify the name, title, e-mail address, and phone number of the attester. Failure to include a complete attestation statement will result in the submittal not being considered for inclusion.

At this time ETA anticipates listing all organizations offering job banks/bulletin boards or portal/gateway sites that meet the standards set forth in this notice. However, if the response to this notice is greater than anticipated, ETA reserves the right to limit the list to a manageable size.

Signed at Washington, DC, this 17th day of January, 2006.

Emily Stover DeRocco,
Assistant Secretary for Employment and Training.

BILLING CODE 4510-30-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (07-003)]

Notice of Intent To Grant Exclusive License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of intent to grant exclusive license.

SUMMARY: This notice is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i). NASA hereby gives notice of its intent to grant an exclusive license in the United States to practice the inventions described in ARC-15205-1, entitled "Biochemical Sensors Using Carbon Nanotube Arrays", to Early Warning, Inc., having its principal place of business in Newark, Delaware. This license may be field of use restricted. The patent rights in this invention have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective exclusive license will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7.

DATES: The prospective exclusive license may be granted unless, within

fifteen (15) days from the date of this published notice, NASA receives written objections including evidence and argument that establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7. Competing applications completed and received by NASA within fifteen (15) days of the date of this published notice will also be treated as objections to the grant of the contemplated exclusive license.

Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

ADDRESSES: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, NASA Ames Research Center, Mail Stop 202A-4, Moffett Field, CA 94035-1000. (650) 604-5104; Fax (650) 604-2767.

FOR FURTHER INFORMATION CONTACT:
Robert M. Padilla, Chief Patent Counsel, Office of Chief Counsel, NASA Ames Research Center, Mail Stop 202A-4, Moffett Field, CA 94035-1000. (650) 604-5104; Fax (650) 604-2767. Information about other NASA inventions available for licensing can be found online at <http://techtracs.nasa.gov/>.

Dated: January 19, 2007.

Keith T. Sefton,
Deputy General Counsel, Administration and Management

BILLING CODE 7510-13-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-272]

PSEG Nuclear Llc, Exelon Generation Company, LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-70 issued to PSEG Nuclear LLC (the licensee) for operation of the Salem Nuclear Generating Station (Salem), Unit No. 1, located in Salem County, New Jersey.

The amendment request proposes a one-time change to the Technical Specifications (TSs) regarding the steam

generator (SG) tube inspection and repair required for the portion of the SG tubes passing through the tubesheet region. Specifically, for Salem Unit No. 1 refueling outage 18 (planned for spring 2007) and the subsequent operating cycle, the proposed TS changes would limit the required inspection (and repair if degradation is found) to the portions of the SG tubes passing through the upper 17 inches of the approximate 21-inch tubesheet region.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the *Code of Federal Regulations* (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the change involve a significant increase in the probability or consequences of an accident previously evaluated?

Of the accidents previously evaluated, the proposed changes only affect the steam generator tube rupture (SGTR) event evaluation and the postulated steam line break (SLB) accident evaluation. Loss-of-coolant accident (LOCA) conditions cause a compressive axial load to act on the tube. Therefore, since the LOCA tends to force the tube into the tubesheet rather than pull it out, it is not a factor in this amendment request. Another faulted load consideration is a safe shutdown earthquake (SSE); however, the seismic analysis of Model F steam generators has shown that axial loading of the tubes is negligible during an SSE.

At normal operating pressures, leakage from primary water stress corrosion cracking (PWSCC) below 17 inches from the top of the tubesheet is limited by both the tube-to-tubesheet crevice and the limited crack opening permitted by the tubesheet constraint. Consequently, negligible normal operating leakage is expected from cracks within the tubesheet region.

For the SGTR event, the required structural margins of the steam generator tubes will be maintained by the presence of the tubesheet. Tube rupture is precluded for cracks in the
