SUPPLEMENTARY INFORMATION:**Description**

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC 538 "Gas Pipeline Certificates: Initial Service."
 2. *Sponsor:* Federal Energy Regulatory Commission.
 3. *Control No.:* 1902–0061.
- The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the Statutory provisions of sections 7(a), 10(a) and 16 of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w). The reporting requirements contained in this collection of information are used by the Commission to determine whether a distributor applicant can economically construct and manage its facilities. Requests are made to the Commission by individuals or entities to have the Commission, by order, direct a natural gas pipeline to extend or improve its transportation facilities, and sell gas to an individual, entity or municipality for the specific purpose indicated in the order, and to extend the pipeline's transportation facilities to communities immediately adjacent to the municipality's facilities or to territories served by the natural gas company. In addition, the Commission reviews the supply data to determine if the pipeline company can provide the service without curtailing certain of its existing customers. The flow data and market data are also used to evaluate existing and future customer requirements on the system to find if sufficient capacity will be available.

Likewise, the cost of facilities and the rate data are used to evaluate the financial impact of the cost of the project to both the pipeline company and its customers. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Part 156.

5. *Respondent Description:* The respondent universe currently comprises 85 companies (on average) subject to the Commission's jurisdiction. However, the Commission receives on average filings from only one respondent.

6. *Estimated Burden:* 240 total hours, 1 respondents (average), 1 response per respondent, and 240 hours per response (average).

7. *Estimated Cost Burden to respondents:* 240 hours/2080 hours per years × \$122,137 per year = \$14,093. The cost per respondent is equal to \$14,093.

Statutory Authority: Statutory provisions of sections 7(a), 10(a) and 16 of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w).
