

Specialist, FAA, Central Region, 901 Locust, Kansas City, MO 64106-2325, (816) 329-2642. The request to release property may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the request to release property at the Des Moines International Airport under the provisions of AIR 21.

On January 19, 2007, the FAA determined that the request to release property at the Des Moines International Airport submitted by the City of Des Moines, met the procedural requirements of the Federal Aviation Administration. The FAA will approve or disapprove the request, in whole or in part, no later than April 30, 2007.

The following is a brief overview of the request.

The City of Des Moines requests the release of approximately 5.07 acres of airport property. The land is not being used for future aeronautical purposes. The release of the property will allow for the sale of the land to generate revenue for the airport. The proceeds would be used for future FAA Airport Improvement Program (AIP) eligible projects at the Des Moines International Airport.

Any person may inspect the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the request in person at the City of Des Moines, Des Moines, Iowa.

Issued in Kansas City, Missouri, on January 19, 2007.

George A. Hendon,
Manager, Airports Division, Central Region.

Federal Railroad Administration

[Docket Number FRA-2006-25765]

Union Pacific Railroad Company; Notice of Withdrawal of Petition for Waiver of Compliance and Cancellation of Public Hearing

On November 28, 2006, FRA published a document in the **Federal Register** announcing that it had received a petition from the Union Pacific Railroad Company (UP) seeking a waiver of compliance from certain provisions of Brake System Safety Standards for Freight and Other Non-passenger Trains and Equipment, End of Train Devices, Title 49 Code of Federal Regulations (CFR) Part 232; Freight Car Safety Standards, 49 CFR Part 215; and Locomotive Safety Standards, 49 CFR Part 229. 71 FR 68885. The requested relief would have permitted run-through trains that originate in Mexico and are interchanged with the UP at the Laredo, Texas Gateway, to operate into the interior of the United States without having to perform additional train or locomotive inspections at the U.S./ Mexican border. In response to the November 28, 2006 notice, an interested party requested a public hearing on the issue and FRA subsequently scheduled a public hearing for February 7, 2007. 72 FR 185 (January 3, 2007).

By a letter dated January 25, 2007, the UP has withdrawn its petition for waiver.

Accordingly, the public hearing scheduled for February 7, 2007, in Laredo, Texas is hereby canceled.

Issued in Washington, DC on January 30, 2007.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.
