B. Regulatory Flexibility Act
The Councils do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule addresses the deletion of a term used to describe a system for the electronic data interchange of acquisition information between the private section and the Federal Government without removing the use of the system. Additionally, where necessary in the FAR, the term has been replaced with a more appropriate term that incorporates various electronic data interchange systems. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. We invite comments from small businesses and other interested parties. The Councils will consider comments from small entities concerning the affected FAR parts 2, 4, 5, and 13 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, et seq. (FAR case 2006–015), in correspondence.

C. Paperwork Reduction Act
The Paperwork Reduction Act does not apply because the proposed changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

SUPPLEMENTARY INFORMATION: Under 49 U.S.C. 10702, the Board has the authority to address the reasonableness of a rail carrier’s practices. And the Board has specific authority under 49 U.S.C. 11145(a)(1) to require regulated rail carriers to file annual, periodic, and special reports with the Board. The proposed monthly Report of Fuel Cost, Consumption, and Surcharge Revenues is intended to permit the Board to monitor the current fuel surcharge practices of the large (Class I) carriers. The proposed reporting form is included as Appendix A. See the Board’s decision in this proceeding served January 26, 2007, for a discussion of the background and history of rail fuel surcharge reporting.

Pursuant to the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (PRA) and Office of Management and Budget (OMB) regulations at 5 CFR 1320.8(d)(3), the Board now seeks comments regarding: (1) Whether the particular collection of information described below is necessary for the proper performance of the functions of the Board, including whether the collection has practical utility; (2) the accuracy of the Board’s burden estimates; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, when appropriate. Information pertinent to these issues is included in Appendix B. This proposed rule has been submitted to OMB for review as required under the PRA, 5 U.S.C. 3507(d) and 5 CFR 1320.11. In accordance with the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number.

Pursuant to 5 U.S.C. 605(b), the Board certifies that this action will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.
