

this document cannot be compared with the numbers resulting from searches of the Web site. This document incorporates totals for all postmarketing study commitments in FDA databases, including those undergoing review for accuracy. The report in this document will be updated annually while the Web

site is updated quarterly (in January, April, July, and October).

II. Summary of Information From Postmarketing Study Progress Reports

This report summarizes the status of postmarketing commitments as of September 30, 2006. If a commitment did not have a schedule or a

postmarketing progress report was not received, the commitment is categorized according to the most recent information available to the agency.

Data in table 1 of this document are numerical summaries generated from FDA databases. The data are broken out according to application type (NDAs/ANDAs or BLAs).

TABLE 1.—SUMMARY OF POSTMARKETING STUDY COMMITMENTS (NUMBERS AS OF SEPTEMBER 30, 2006)

	NDA/ANDAs (% of Total)	BLAs ¹ (% of Total)
Applicants With Open Postmarketing Commitments	127	45
Number of Open Postmarketing Commitments	1,259	373
Status of Open Postmarketing Commitments		
• Pending	899 (71%)	127 (34%)
• Ongoing	184 (15%)	90 (24%)
• Delayed	31 (3%)	78 (21%)
• Terminated	1 (<1%)	2 (1%)
• Submitted	144 (11%)	76 (20%)
Concluded Studies (October 1, 2005 Through September 30, 2006)	194	38
• Commitment Met	160 (83%)	33 (87%)
• Commitment Not Met	10 (5%)	0
• Study No Longer Needed or Feasible	24 (12%)	5 (13%)
Applications With Open Postmarketing Commitments With Annual Reports Due, But Not Submitted Within 60 Days of the Anniversary Date of U.S. Approval	133 (37%) ²	33 (47%)

¹ On October 1, 2003, FDA completed a consolidation of certain products formerly regulated by the CBER into CDER. The previous association of BLA reviews only with CBER is no longer valid; BLAs are now received by both CBER and CDER. Fiscal year (FY) statistics for CDER BLA postmarketing study commitments will continue to be counted under BLA totals in this table.

² Note that this statistic counts all annual reports submitted more than 60 days after the anniversary date of U.S. approval as overdue, including reports that may have been submitted on a modified reporting schedule in accordance with prior FDA agreement. Of the applications categorized as having overdue annual reports using this definition, annual reports were subsequently submitted in FY 2006 for 133/133 (100%) of NDAs/ANDAs and 15/33 (45%) of BLAs.

SUMMARY: The Bureau of Customs and Border Protection, in conjunction with

the Department of Transportation, Federal Motor Carrier Safety Administration, is currently conducting a National Customs Automation Program (NCAP) test concerning the transmission of automated truck manifest data. This document announces a new group, or cluster, of ports to be deployed for this test.

DATES: The ports identified in this notice, all in the state of North Dakota, are expected to be fully deployed for testing by January 31, 2007. Comments concerning this notice and all aspects of the announced test may be submitted at any time during the test period.

FOR FURTHER INFORMATION CONTACT: Mr. James Swanson via e-mail at james.d.swanson@dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

The National Customs Automation Program (NCAP) test concerning the

transmission of automated truck manifest data for truck carrier accounts was announced in a General Notice published in the **Federal Register** (69 FR 55167) on September 13, 2004. That notice stated that the test of the Automated Truck Manifest would be conducted in a phased approach, with primary deployment scheduled for no earlier than November 29, 2004.

A series of **Federal Register** notices have announced the implementation of the test, beginning with a notice published on May 31, 2005 (70 FR 30964). As described in that document, the deployment sites for the test have been phased in as clusters. The ports identified belonging to the first cluster were announced in the May 31, 2005, notice. Additional clusters were announced in subsequent notices published in the **Federal Register** including: 70 FR 43892, published on July 29, 2005; 70 FR 60096, published

on October 14, 2005; 71 FR 3875, published on January 24, 2006; 71 FR 23941, published on April 25, 2006; 71 FR 42103, published on July 25, 2006; and 71 FR 77404, published on December 26, 2006.

New Cluster

Through this notice, CBP announces that a new cluster of ports to be brought up for purposes of deployment of the test, to be fully deployed by January 31, 2007, will be the following ports in the State of North Dakota: St. John; Dunseith; Carbury; Westhope; Antler; Sherwood; Northgate; Portal; Noonan; Ambrose; and Fortuna. This deployment is for purposes of the test of the transmission of automated truck manifest data only; the Automated Commercial Environment (ACE) Truck Manifest System is not yet the mandated transmission system for these ports. The ACE Truck Manifest System will become the mandatory transmission system in these ports only after publication in the **Federal Register** of 90 days notice, as explained by CBP in the **Federal Register** notice published on October 27, 2006 (71 FR 62922).

Previous NCAP Notices Not Concerning Deployment Schedules

On Monday, March 21, 2005, a General Notice was published in the **Federal Register** (70 FR 13514) announcing a modification to the NCAP test to clarify that all relevant data elements are required to be submitted in the automated truck manifest submission. That notice did not announce any change to the deployment schedule and is not affected by publication of this notice. All requirements and aspects of the test, as set forth in the September 13, 2004 notice, as modified by the March 21, 2005 notice, continue to be applicable.
