Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC.

There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Docket No. CP07-68-000]

**Gulf South Pipeline Company, LP;
Notice of Application**

January 30, 2007.

Take notice that on January 22, 2007, Gulf South Pipeline Company LP (Gulf South), 20 East Greenway, Houston, Texas 77046, filed in Docket No. CP07-68-000 an application pursuant to section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon, in place, one compressor unit at the Edna Compressor Station, Jackson County, Texas and four compressor units at the Refugio Compressor Station, Refugio County, Texas, all as more fully set forth in the application.

The application is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov and follow the instructions or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions concerning this request may be directed to J. Kyle Stephens, Director of Certificates, Gulf South Pipeline Company, LP, 20 East Greenway Plaza, Houston, Texas 77046, or call (713) 544-7309, by fax (713) 544-3540, or by e-mail to kyle.stephens@gulfsouthpl.com.

Gulf South states that it is required, by the Texas Commission on Environmental Quality (TCEQ), to reduce its overall NO_x output by 50% in East and South Texas. Gulf South contends that as part of its strategy to

meet TCEQ's requirement, Gulf South has chosen to permanently abandon four compressor units at Refugio and one compressor unit at Edna instead of retrofitting the stations with expensive emissions reducing equipment. Gulf South avers that it would be able to meet all of its firm transportation obligations without these facilities and meet TCEQ requirements for the reduction of NO_x emissions in a cost effective manner.

Gulf South asserts that no interruption, reduction, or termination of natural gas service would occur as a result of the proposed abandonment.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filing of comments, protests and interventions via the Internet in lieu of paper. See 18 CFR 385.2001 (a)(1)(iii) and the instructions on the Commission's Web site www.ferc.gov under the "e-Filing" link.
