BILLING CODE 6560-50-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Document Identifier: OS-0990-New; 60-day notice]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: New Collection.

Title of Information Collection: Evaluation of Approaches to Preventing Adolescent Sexual Risk Behaviors.

Form/OMB No.: 0990-NEW.

Use: The Evaluation of Approaches to Preventing Adolescent Sexual Risk Behaviors incorporates parallel evaluations of two different approaches to preventing adolescent sexual risk behavior with the overall goal of estimating the effects of abstinence

education and comprehensive sex education delivered as part of middle school curricula.

The proposed study will be longitudinal; annual surveys will be administered to a cohort of sixth grade students from sixth grade through high school (or age eighteen for those who drop out of school or fail to graduate). These surveys will focus on measuring behavioral changes—non-sexual risk or precursor behaviors for younger teens and sexual behaviors for older teens, including premarital sexual activity, incidence of sexually transmitted diseases; and incidence of pregnancies and births. The surveys will also include age-appropriate questions about attitudes and intentions. Interviews will also be conducted with school health directors concerning health initiatives and issues in the sampled schools. This request is for the baseline and first follow-up instruments.

Frequency: Annual.

Affected Public: Individual.

Annual Number of Respondents: 3,027.

Total Annual Responses: 8,257.

Average Burden per Response: 46.93 minutes.

Total Annual Hours: 6,459.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to Sherrette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-6162. Written comments and recommendations for the proposed information collections must be received with 60-days, and directed to the OS Paperwork Clearance Officer at the following address:

Department of Health and Human Services, Office of the Secretary, Assistant Secretary for Research and Technology, Office of Resource Management, Attention: Sherrette Funn-Coleman (0990-NEW), Room 537-H, 200 Independence Avenue, SW., Washington, DC 20201.

Dated: January 31, 2007.

Alice Bettencourt,

Office of the Secretary, Paperwork Reduction Act Reports Clearance Officer.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an email to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Assessment and Monitoring of Breastfeeding-Related Maternity Care Practices in Intra-partum Care Facilities in the United States and Territories—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

There is substantial evidence on the social, economic and health benefits of breastfeeding for both the mother and infant and the importance of the health care system in promoting the initiation and maintenance of breastfeeding. Yet breastfeeding initiation rates and duration in the United States did not achieve Healthy People 2000 goals, and significant disparities continue to exist between African American and white women in breastfeeding rates. The Healthy People 2010 goals are to increase the proportion of mothers who breastfeed in the early postpartum period from 64% (1998 estimate) to 75%, the proportion who breastfeed their babies through 6 months of age from 29% to 50%, and to increase from 16% to 25% the proportion of mothers who breastfeed to 1 year of age and to decrease the disparities in breastfeeding initiation, exclusivity, and duration between African American and white women. In addition to ethnic and racial disparities, there is evidence of significant variation in state breastfeeding rates. For example, the breastfeeding initiation rate in Louisiana was 46.4% in 2003 and in Oregon was 88.8%.
