SUPPLEMENTARY INFORMATION:**I. Description of the Proposed System of Records**

The Department of Veterans Affairs Federal Docket Management System (VAFDMS) permits the Department of Veterans Affairs (VA) to identify individuals, who have submitted comments in response to VA rulemaking documents or notices so that communications or other actions, as appropriate and necessary, can be effected, such as to seek clarification of the comment, to directly respond to a comment, and for other activities associated with the rulemaking or notice process. Identification is possible only if the individual voluntarily provides identifying information when submitting a comment. If such information is not furnished, the submitted comments and/or supporting documentation cannot be linked to an individual.

FDMS permits members of the public to search the public comments received

by name of the individual submitting the comment. Unless the individual submits the comment anonymously, a name search will result in the comment being displayed for view. Comments may be searched by other means whether submitted anonymously or by an identified individual. If the comment is submitted electronically using FDMS, the viewed comment will not include the name of the submitter or any other identifying information about the individual except that, which the submitter has opted to include as part of his or her general comments. If a comment is submitted by an individual on his or her own behalf, in writing, that has been scanned and uploaded into FDMS, unless the individual submits the comment anonymously, the submitter's name will be on the comment, but other personally identifying information will be redacted before it is scanned and uploaded. Comments submitted on behalf of organizations in writing that have to be scanned and uploaded into FDMS, will not be redacted.

II. Proposed Routine Use Disclosures of Data in the System

Disclosure may be made to individuals, organizations, private or public agencies, or other entities or individuals with whom VA has a contract or agreement to perform such services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor, subcontractor, public or private agency, or other entity or individual with whom VA has an agreement or contract to perform the services of the contract or agreement. This routine use includes disclosures by the individual or entity performing the service for VA to any secondary entity or individual to perform an activity that is necessary for individuals, organizations, private or public agencies, or other entities or individuals with whom VA has a contract or agreement to provide the service to VA.

VA may disclose information contained in this system of records, as necessary, to comply with the requirements of the Administrative Procedure Act (APA) that comments are available for public review if submitted in response to VA's solicitation of public comments as part of the Agency's notice and rulemaking activities under the APA. However, VA will not release individually-identifiable personal information, such as an individual's home telephone number, under this routine-use except where VA determines that release of this information is integral to the public's

understanding of the comment submitted.

VA may disclose, on its own initiative, any information in this system, except the names and home addresses of veterans and their dependents, which is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal or regulatory in nature and whether arising by general or program statute or by regulation, rule or order issued pursuant thereto, to a Federal, State, local, tribal, or foreign agency, charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule or order. On its own initiative, VA may also disclose the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order issued pursuant thereto.

VA may disclose information in this System of Records to the Department of Justice (DoJ), either on VA's initiative or in response to DoJ's request for the information, after either VA or DoJ determines that such information is relevant to DoJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that disclosure of the records to the Department of Justice is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.

III. Compatibility of the Proposed Routine Uses

Release of information from these records, pursuant to routine uses, will be made only in accordance with the provisions of the Privacy Act of 1974. The Privacy Act of 1974 permits agencies to disclose information about individuals, without their consent, for a routine use when the information will be used for a purpose that is compatible with the purpose for which the information was collected. In the routine-use disclosures proposed for this new VA system of records, VA will

disclose individually-identified information for the following purposes: in connection with VA's administrative notice and rulemaking process; to contractors to perform a function associated with that process; for law-enforcement activities; and in administrative and judicial proceedings. VA has determined that the disclosure of information for the above purposes is a proper and necessary use of the information collected by the VAFDMS system, and is compatible with the purpose for which VA collected the information.

The notice of intent to publish an advance copy of the system notice has been sent to the appropriate Congressional Committees and to the Director of the Office of Management and Budget (OMB), as required by 5 U.S.C. 552a(r) (Privacy Act), as amended, and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: January 11, 2007.

Gordon H. Mansfield,
Deputy Secretary of Veterans Affairs.
