SUPPLEMENTARY INFORMATION: Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the Department. These include (1) Whether the information will have practical utility; (2) the accuracy of the Department's estimate of the burden of the information collections; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

PHMSA collects information on distribution, transmission, and gathering pipeline incidents as part of its efforts to minimize natural gas pipeline failures. The requirements for reporting are found in 49 CFR Part 191. PHMSA requires the immediate telephonic notification (§ 191.5) to address potentially significant safety issues related to an incident. The follow-up individual reports for each incident (§§ 191.9 and 191.15) are submitted within 30 days of the incident. PHMSA also requires operators to submit an annual report containing system information. These reports enable PHMSA to identify and evaluate existing and potential pipeline safety problems and to develop statistical and data/safety reports. A copy of these report forms can be found in the docket for this information collection renewal.

As used in this notice, the term "information collection" includes all work related to preparing and disseminating information related to these recordkeeping requirements including completing paperwork,

gathering information, and conducting telephone calls.

Type of Information Collection Request: Renewal of existing collection.

Title of Information Collection: Incident and Annual Reports for Gas Pipeline Operators.

Respondents: 2100 gas pipeline operators.

Estimated Total Annual Burden on Respondents: 36,105 hours.

Issued in Washington, DC, on February 6, 2007.

Florence L. Hamm,

Director of Regulations, Office of Pipeline Safety.

PHMSA requires operators to complete and submit an annual report (49 CFR 195.49). The operator provides details about the crude oil, highly volatile liquid (including anhydrous ammonia), petroleum products, or carbon dioxide pipeline systems operated at the end of the previous year.

These reports enable PHMSA to identify and evaluate existing and potential pipeline safety problems and to develop statistical and data/safety reports. A copy of this report (Form PHMSA F7000.1.1) is available in the docket for this information collection renewal.

As used in this notice, the term "information collection" includes all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information, and conducting telephone calls.

Type of Information Collection Request: Renewal of existing collection.

Title of Information Collection: Hazardous Liquid Pipeline Operator Annual Reports.

Respondents: 298 hazardous liquid pipeline operators completing 447 annual reports.

Estimated Total Annual Burden on Respondents: 5,364 hours.

Issued in Washington, DC, on February 6, 2007.
