Continuation Pursuant to Second Five-Year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders: Certain Corrosion-Resistant Carbon Steel Flat Products from Germany and Korea

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce ("the Department") and the International Trade Commission ("ITC") that revocation of the antidumping ("AD") orders on certain corrosion-resistant carbon steel flat products ("CORE") from Germany and Korea would likely lead to continuation or recurrence of dumping; that revocation of the countervailing duty ("CVD") order on CORE from Korea would likely lead to continuation or recurrence of a countervailable subsidy; and that revocation of these AD and CVD orders would likely lead to a continuation or recurrence of material injury to an industry in the United States, the Department is publishing this notice of continuation of these AD and CVD orders.

EFFECTIVE DATE: February 14, 2007.

FOR FURTHER INFORMATION CONTACT: Darla Brown (AD orders), Stephanie Moore (CVD order), or Brandon Farlander, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2849, (202) 482-3692, or (202) 482-0182, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 2005, the Department initiated and the ITC instituted sunset reviews of the AD orders on CORE from Germany and Korea and CVD order on CORE from Korea, pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended ("the Act"), respectively. See *Notice of Initiation of Five-Year ("Sunset") Reviews*, 70 FR 65884 (November 1, 2005). As a result of its reviews, the Department found that revocation of the AD orders would likely lead to continuation or recurrence of dumping and that revocation of the CVD order would be likely to lead to continuation or recurrence of subsidization, and notified the ITC of the margins of dumping and the subsidy rates likely to prevail were the orders to be revoked. See *Final Results of Expedited Sunset Reviews: Corrosion-Resistant Carbon Steel Flat Products from Australia, Canada, France, Germany, Japan, and South Korea*, 71 FR 32508 (June 6, 2006) and *Certain Corrosion-Resistant Carbon Steel Flat Products From Korea: Final Results of Expedited Five-Year ("Sunset") Review of Countervailing Duty Order*, 71 FR 32519 (June 6, 2006) (collectively, "Final Results").

On January 31, 2007, the ITC determined that revocation of the AD orders on CORE from Germany and Korea and the CVD order on CORE from Korea would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. See *Certain Carbon Steel Products from Australia, Belgium, Brazil, Canada, Finland, France, Germany, Japan, Korea, Mexico, Poland, Romania, Spain, Sweden, Taiwan, and the United Kingdom*, 72 FR 4529 (January 31, 2007) ("ITC Determination") and USITC Publication 3899 (January 2007), entitled *Certain Carbon Steel Products from Australia, Belgium, Brazil, Canada, Finland, France, Germany, Japan, Korea, Mexico, Poland, Romania, Spain, Sweden, Taiwan, and the United Kingdom: Investigation Nos. AA1921-197; (Second Review); 701-TA-319, 320, 325-327, 348, and 350 (Second Review)*;

and 731-TA-573, 574, 576, 578, 582-587, 612, and 614-618 (Second Review).

Scope of the Orders

The products subject to these orders include flat-rolled carbon steel products, of rectangular shape, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating, in coils (whether or not in successively superimposed layers) and of a width of 0.5 inch or greater, or in straight lengths which, if of a thickness less than 4.75 mm, are of a width of 0.5 inch or greater and which measures at least 10 times the thickness, or if of a thickness of 4.75 mm or more, are of a width which exceeds 150 mm and measures at least twice the thickness, as currently classifiable in the HTS under item numbers: 7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030, 7210.49.0090, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.1000, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7212.60.0000, 7215.90.1000, 7215.90.3000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, and 7217.90.5090.

Included in these orders are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling") - for example, products which have been beveled or rounded at the edges.

Excluded from the scope of these orders are flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and chromium oxides ("tin-free steel"), whether or not painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating. Also excluded from the scope of these orders are clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness. Also excluded from the scope of the orders are certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 mm

in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20%-60%-20% ratio.

Determination

As a result of the determinations by the Department and the ITC that revocation of these AD and CVD orders would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy, and of material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the AD orders on CORE from Germany and Korea and the CVD order on CORE from Korea. U.S. Customs and Border Protection will continue to collect cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of these orders will be the date of publication in the **Federal Register** of this Notice of Continuation.

Pursuant to sections 751(c)(2) and 751(c)(6) of the Act, the Department intends to initiate the next five-year review of these orders not later than December 2011.

These five-year (sunset) reviews and notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: February 5, 2007.

Assistant Secretary for Import Administration.
