## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Institutes of Health

#### Prospective Grant of Exclusive License: The Use of Adenovirus Vectors for the Development of Vaccines Against Human Immunodeficiency Virus and Other Infectious Agents

**AGENCY:** National Institutes of Health, Public Health Service, HHS.

**ACTION:** Notice.

**SUMMARY:** This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR Part 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services (HHS), is contemplating the grant of an exclusive patent license to practice the inventions embodied in Patent Cooperation Treaty Application No. PCT/US02/27592 filed August 29, 2002 and United States National Stage Application Serial No. 10/487,974 filed February 27, 2004, entitled "New Adenovirus Type 7 Vectors" [HHS Reference No. E-236-2001/0], and United States Patent Application Serial No. 11/282,319 filed November 17, 2005, entitled "Improved Replication-Competent Adenovirus Vectors" [HHS Reference No. E-203-2004/0], to PaxVax, Inc., which has offices in Menlo Park, CA. The patent rights in these inventions have been assigned and/or exclusively licensed to the Government of the United States of America.

The prospective exclusive license territory may be the United States of America, and the field of use may be limited to the development of vaccines against human immunodeficiency virus, human papillomavirus, influenza, malaria, and tuberculosis.

**DATES:** Only written comments and/or applications for a license which are received by the NIH Office of

Technology Transfer on or before April 23, 2007 will be considered.

**ADDRESSES:** Requests for copies of the patent application, inquiries, comments, and other materials relating to the contemplated exclusive license should be directed to: Susan Ano, Ph.D., Technology Licensing Specialist, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852-3804; Telephone: (301) 435-5515; Facsimile: (301) 402-0220; E-mail: [anos@mail.nih.gov](mailto:anos@mail.nih.gov).

**SUPPLEMENTARY INFORMATION:** The subject application addresses two (2) technologies related to specific techniques for producing adenoviral vectors and application of such vectors for gene transfer, vaccine development and therapeutics. Use of the present technologies in the prevention and/or treatment of disease, especially human immunodeficiency virus (HIV), is the primary focus of the current subject inventions.

The first technology (HHS Reference No. E-236-2001/0) describes a cosmid adenoviral serotype 7 (Ad7) vector for use in the prevention and/or treatment of HIV-1. This invention includes methods for producing and administering both replication-competent and incompetent Ad7. The cosmid Ad7 vector includes an Ad7 genome that can be modified to express specific nucleic acid sequences for production of a desired protein or epitope such as an HIV-1 gene product. This system may be used to generate proteins or epitopes of infectious agents for stimulation of desired immunogenic responses.

The second invention (HHS Reference No. E-203-2004/0) discloses improvements upon replication-competent Ad vectors, which serve to produce high level expression of any gene of interest, *i.e.*, a transgene. This system incorporates a novel hybrid gene regulatory unit comprising a CMV promoter and an adenovirus tripartite leader sequence for regulation of transgene expression. Additionally, the present disclosure provides methods of producing and administering the described adenoviral expression vectors, containing the nucleic acid sequence of significant HIV-1 proteins as transgenes for stimulation of an immune response to HIV-1.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR part 404.7. The prospective exclusive license may be granted within ninety (90) days from the date of this published notice, unless the

NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.7.

Applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated exclusive license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: February 12, 2007.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

The Convention on International Trade in Endangered Species of Wild Fauna and Flora, hereinafter referred to as CITES or the Convention, is an international treaty designed to control and regulate international trade in certain animal and plant species that are now or potentially may become threatened with extinction. These species are listed in Appendices to

CITES, which are available on the CITES Secretariat's Web site at <http://www.cites.org/eng/app/index.shtml>. Currently, 169 countries, including the United States, are Parties to CITES. The Convention calls for biennial meetings of the Conference of the Parties, which reviews its implementation, makes provisions enabling the CITES Secretariat in Switzerland to carry out its functions, considers amendments to the list of species in Appendices I and II, considers reports presented by the Secretariat, and makes recommendations for the improved effectiveness of CITES. Any country that is a Party to CITES may propose amendments to Appendices I and II, and draft resolutions, and decisions, and/or agenda items for consideration by all the Parties.

This is our third in a series of **Federal Register** notices that, together with announced public meetings, provide you with an opportunity to participate in the development of the U.S. negotiating positions for CoP14. We published our first CoP14-related **Federal Register** notice on January 20, 2006 (71 FR 3319), and with it we requested information and recommendations on species proposals and proposed resolutions, decisions, and agenda items for the United States to consider submitting for consideration at CoP14. We published our second such **Federal Register** notice on November 7, 2006 (71 FR 65126), and with it we requested information and recommendations on species proposals, proposed resolutions, proposed decisions, and other agenda items that the United States was considering submitting for consideration at CoP14. You may obtain information on the above **Federal Register** notices from the following sources: for information on proposed resolutions, decisions, and agenda items, contact the Division of Management Authority (**ADDRESSES**); and for information on species proposals, contact the Division of Scientific Authority (**ADDRESSES**). Our regulations governing this public process are found in 50 CFR 23.31-23.39.

CoP14 is scheduled to be held in The Hague, The Netherlands, June 3-15, 2007. On January 4, 2007, the United States submitted to the CITES Secretariat, for consideration at CoP14, its species proposals, proposed resolutions, proposed decisions, and other agenda items. These documents are available on our Web site at <http://www.fws.gov/international>.
