

protection of investors or the public interest; (2) impose any significant burden on competition; and (3) become operative for 30 days from the date of this filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and Rule 19b-4(f)(6) thereunder.¹²

A proposed rule change filed under 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.¹³ However, Rule 19b-4(f)(6)(iii)¹⁴ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and in the public interest because it will allow the Pilot Program to continue uninterrupted.¹⁵

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹³ 17 CFR 240.19b-4(f)(6)(iii). In addition, Rule 19b-4(f)(6)(iii) requires that a self-regulatory organization submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. Phlx has satisfied the five-day pre-filing requirement.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: State Route 91 Improvements. The Project Begins on State Route 91/State Route 67/U.S. 321 West of State Route 362 and Extends to Just West of State Route-37 (U.S. 19E), Elizabethton, Carter County, TN

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed highway project in Carter County, Tennessee.

FOR FURTHER INFORMATION CONTACT: Ms. Karen M. Brunelle, Planning and Program Management Team Leader, Federal Highway Administration—Tennessee Division Office, 640 Grassmere Park Road, Suite 112, Nashville, TN 37211. 615-781-5772.

SUPPLEMENTARY INFORMATION: An environmental assessment (EA) was prepared for the proposed project and completed on June 7, 2002. Since the June 7, 2002 EA approval, technical studies identified sensitive environmental features which warranted the consideration of additional alternatives beyond the ones studied for the western half of the original preferred alternative presented in the EA. The identified environmental issues could result in potential significant impacts. As a result, the FHWA in cooperation with the Tennessee Department of Transportation will prepare an environmental impact statement (EIS) on a proposal to provide an improved corridor from west of State Route 362 to just west of State Route-37 (U.S. 19E), a distance of approximately four miles.

Alternatives to be considered include: (1) No-build; (2) a Transportation System Management (TSM) alternative; (3) a transit alternative; (4) one or more build alternatives that could include constructing a roadway on a new location, upgrading existing State Route-91, or a combination of both, and (5) other alternatives that may arise from public input. Public scoping meetings will be held for the project corridor. As part of the scoping process, federal, state, and local agencies and officials; private organizations; citizens; and interest groups will have an opportunity to identify issues of concern and provide input on the purpose and need for the project, range of alternatives, methodology, and the development of the Environmental Impact Statement. A Coordination Plan will be developed to include the public in the project development process. This plan will utilize the following outreach efforts to provide information and solicit input: newsletters, an internet Web site, e-mail and direct mail, informational meetings and briefings, public hearings, and other efforts as necessary and appropriate. A public hearing will be held upon completion of the Draft Environmental Impact Statement and public notice will be given of the time and place of the hearing. The Draft EIS will be available for public and agency review and comment prior to the public hearings.

To ensure that the full range of issues related to this proposed action are identified and taken into account,

comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action should be directed to the FHWA contact person identified above at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this proposed program).

Issued on: February 15, 2007.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to a proposed highway project, I-405 Renton Nickel Improvement Project between Tukwila and Renton in the State of Washington. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on any of the listed highway projects will be barred unless the claim is filed on or before August 21, 2007. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

This project extends along I-405 from just east of the I-5/I-405 interchange in Tukwila north to the SR 169 interchange, and south on SR 167 to SW 41st Street. It consists of one new general-purpose lane in each direction along I-405 throughout most of the project limits. On SR 167, the project will extend the existing southbound HOV lane north to I-405 and add a southbound auxiliary lane from I-405 to the SW 41st Street off-ramp. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the October 2006 Environmental Assessment (EA) and the January 31, 2007 Finding of No Significant Impact (FONSI), and in other documents in the FHWA administrative record. The EA, FONSI and other documents in the FHWA administrative record are available by contacting the FHWA or WSDOT at the addresses provided above. The EA can be viewed and downloaded from the project Web site at www.wsdot.wa.gov/Projects/i405/corridor/library/rentea.htm or viewed at public libraries in the project area. Since Federal funding is not currently available for this project, an FHWA project number has not been established.
