

specific to each alternative during the preparation of the EIS would have been impracticable and inefficient in light of the large number of alternatives located across three states and crossing numerous agency jurisdictional boundaries.

Instead, DOE will work with USFWS, National Oceanic and Atmospheric Administration (NOAA) Fisheries, U.S. Army Corps of Engineers, EPA, and other Federal, state, and local natural resource agencies to develop specific mitigation measures for unavoidable impacts to endangered species, EFH, wetlands, and other resources, as described in the final EIS. The mitigation plan for the alternative selected in this ROD will be developed during the permitting process, after wetland delineations and jurisdictional determinations and a functional assessment of affected wetlands is completed. DOE will also complete a formal consultation with USFWS and NOAA Fisheries and prepare a Biological Assessment as mandated under Section 7 of the Endangered Species Act for any endangered species that may be affected by the selected alternative. Through these activities, DOE will develop and adopt a detailed mitigation plan to take all practicable means to avoid or minimize environmental harm, as required by 40 CFR 1505.2(c).
