

expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pressure sensitive tape and label surface coating operations.

Estimated Number of Respondents: 37.

Frequency of Response: Initially and semi-annually.

Estimated Total Annual Hour Burden: 3,353.

Estimated Total Annual Cost: \$263,323, which includes \$7,000 annualized capital/start-up costs, \$64,800 in annualized Operating & Maintenance (O&M) costs, and \$191,523 in annualized Labor Costs.

Changes in the Estimates: There is an increase of 129 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to a correction.

Dated: February 13, 2007.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2006-0420; FRL-8279-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS and NESHAP for Wool Fiberglass Manufacturing Plants (Renewal), EPA ICR Number 1160.08, OMB Control Number 2060-0114

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office

of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before March 26, 2007.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2006-0420, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Robert C. Marshall, Jr., Office of Compliance, 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7021; fax number: (202) 564-0050; e-mail address: marshall.robert@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 21, 2006 (71 FR 35652), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2006-0420, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket

that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS and NESHAP for Wool Fiberglass Manufacturing Plants (Renewal).

ICR Numbers: EPA ICR Number 1160.08, OMB Control Number 2060-0114.

ICR Status: This ICR is scheduled to expire on February 28, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, subpart PPP were proposed on February 7, 1984, and promulgated on February 25, 1985. These regulations apply to each rotary spin wool fiberglass insulation manufacturing line, which commenced construction, modification, or reconstruction after February 2, 1984. The purpose of this NSPS is to control the emissions of particulate matter from each rotary spin wool fiberglass insulation manufacturing line. The standards limit particulate emissions to 5.5 kilograms per megagram (11.0 lb./ton) of molten glass used to manufacture the product.

The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 63, subpart NNN were proposed on March 31, 1997, and promulgated on June 14, 1999. These regulations apply to each glass melting furnace located at a wool fiberglass manufacturing plant;

each rotary spin (RS) manufacturing line producing building insulation; each new and existing flame attenuation (FA) manufacturing line that produces pipe products; and each new FA manufacturing line that produces heavy density products. Plants that manufacture mineral wool from rock or slag are not subject to the proposed rule but are subject to a separate NESHAP standard for mineral wool production. A facility that is determined to be an area source would not be subject to this NESHAP standard. This information is being collected to assure compliance with 40 CFR part 60, subpart PPP and 40 CFR part 63, subpart NNN.

In general, all NSPS and NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to both the NSPS and NESHAP.

Any owner or operator subject to the provisions of 40 CFR part 60, subpart PPP shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. Any owner or operator subject to the provisions of 40 CFR part 63, subpart NNN shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports for both the NSPS and NESHAP are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 101 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wool Fiberglass Manufacturing Plants.

Estimated Number of Respondents: 61.

Frequency of Response: Initially, on occasion and semiannually.

Estimated Total Annual Hour Burden: 18,216.

Estimated Total Annual Cost: \$1,599,551, that is comprised of no capital costs, \$489,000 in O&M costs and \$1,110,551 in labor costs.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is low, negative or non-existent, so there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR, and there is no change in burden to industry.

Dated: February 14, 2007.

Richard T. Westlund,

Acting Director, Collection Strategies Division.
