

uninsured or underinsured populations even if there is underutilized capacity. The study will also determine whether there are factors that affect average variable costs across facilities such as the number of procedures performed, specialization in types of procedures or

other characteristics of the facility. Results of this study will be used to better understand the economics of colorectal cancer screening.

Respondents include medical facility receptionists, hospital operators, and office/business managers. The total estimated cost to respondents is

approximately \$72,800 assuming an hourly wage of \$37 for office/business managers and an hourly wage of \$11 for others during the study period. There are no costs to the respondents other than their time. The total estimated annualized burden hours are 2072.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Receptionist	Telephone screening survey	14,160	1	5/60
