Statutorily Mandated Designation of Difficult Development Areas and Qualified Census Tracts for Section 42 of the Internal Revenue Code of 1986: Revision of Definition of Effective Date

AGENCY: Office of the Assistant Secretary for Policy Development and Research, HUD.

ACTION: Notice.

SUMMARY: This notice revises the definition of “effective date” in a notice published in the **Federal Register** on September 28, 2006, designating “Difficult Development Areas” (DDAs) and “Qualified Census Tracts” (QCTs) for purposes of the Low-Income Housing Tax Credit (LIHTC) under section 42 of the Internal Revenue Code of 1986 (the Code) (26 U.S.C. 42). HUD is responsible for designating DDAs and QCTs annually. The September 28, 2006, notice provided a definition of “effective date” that is revised by this notice to define “multiphase” LIHTC projects and to specify how such projects are to be treated when DDA or QCT designations change between phases.

SUPPLEMENTARY INFORMATION:

This Document

This notice revises the definition of “effective date” in a notice published in the **Federal Register** on September 28, 2006 (71 FR 57234). That notice designated DDAs and QCTs for purposes of the LIHTC, as governed by section 42 of the Code (Section 42). HUD is responsible for designating DDAs and QCTs annually, and, at this time, is revising the definition of “effective date” provided in the September 28, 2006, notice (see 71 FR 57238) to define “multiphase” LIHTC projects and specify how such projects are to be treated when DDA or QCT designations change between phases. In addition, this notice clarifies what is meant by “certified in writing” for purposes of demonstrating compliance with effective dates for DDA and QCT designations. This notice does not change the designations of DDAs and QCTs in the September 28, 2006, notice.

Background

The U.S. Department of the Treasury (Treasury) and its Internal Revenue Service (IRS) are authorized to interpret and enforce the provisions of the Internal Revenue Code (the Code), including the LIHTC found at Section 42 of the Code. The requirement for HUD to designate DDAs and QCTs is found in Section 42(d)(5)(C) of the Code. State and local LIHTC-allocating agencies are responsible for allocating LIHTC to eligible projects according to approved Qualified Allocation Plans (QAPs). Most LIHTC-allocating agencies include in their QAPs a limitation on the amount of LIHTC that may be awarded to a particular applicant,

project, and/or location in any year. When applicants plan LIHTC-financed developments that would require amounts of LIHTC in excess of the individual allocation limits defined in the applicable QAP (or in smaller states, that are larger than the annual per capital credit allocation authority), they are forced to divide their developments, and their LIHTC applications, into phases over 2 or more years in order to obtain all the tax credits needed to complete the project. If such developments are located in DDAs or QCTs, there is a possibility that the location of the development may lose its DDA/QCT status after the first phase has been allocated LIHTC, but before subsequent phases have received their allocation or applied for LIHTC. As the financing for developments in these situations is generally predicated on the additional LIHTC available because of the developments’ location in DDAs/QCTs, the subsequent phases may become infeasible.

HUD’s intent in revising designations of DDAs and QCTs is to direct scarce public resources, in the form of additional LIHTC subsidy, to projects in those locations with the greatest need for this additional subsidy as defined by statute. However, HUD does not intend for these changes in designations to ultimately prevent the development of affordable housing, particularly in cases where developments have been required to be done in phases by LIHTC-allocating agency limits on annual allocation amounts to individual applicants.

HUD, therefore, is establishing in this notice a definition of “multiphase projects” and specifying how effective dates in its notices designating DDAs and QCTs are to be applied to such projects. In addition, HUD is clarifying what is meant by “certified in writing” for purposes of demonstrating compliance with effective dates for DDA and QCT designations.

Definition of “Multiphase Projects” and Applicability of Effective Date

For purposes of this notice, a “multiphase project” is defined as a set of buildings to be constructed or rehabilitated under the rules of the LIHTC and meeting the following criteria as certified in writing by the applicable LIHTC-allocating agency:

(1) In the first application for tax credit, the applicant must include an indication of the multiphase nature of the project (*i.e.*, the applicant’s intent to make future applications for LIHTC because of QAP limitations, or agency allocation authority ceilings, for buildings located on a site, as defined
