shipper review for the shipment of solid area from Russia if produced and
exported. See Memorandum to the File from Thomas Schauer, Senior Analyst,
through Laurie Parkhill, Director, Office 5: New—Shipper Review Initiation
Checklist, dated February 26, 2007. Also, please refer to this memorandum for
our response to the arguments the petitioner raised in its February 16,
2007, letter. As we stated in that memorandum, we intend to examine
these arguments in greater detail during the course of the review and, if we
determine that the producer of the subject merchandise subject to the
review was indeed an affiliate of the exporter or producers in the original
investigation, we may rescind the new—shipper review as provided in section

The period of review for this new—shipper review is July 1, 2006, through
intends to issue the preliminary results of this review no later than 180 days
from the date of initiation and final results of this review no later than 270
days from the date of initiation. See section 751(a)(2)(B)(iv) of the Act.

On August 17, 2006, the Pension Protection Act of 2006 (H.R. 4) was
signed into law. Section 1632 of H.R. 4 temporarily suspends the authority
of the Department to instruct U.S. Customs and Border Protection to collect a bond
or other security in lieu of a cash deposit in new—shipper reviews. Therefore, the posting of a bond under section 751(a)(2)(B)(ii) of the Act in lieu of a cash deposit is not available in this
case. Importers of subject merchandise manufactured and exported by
EuroChem must continue to pay a cash deposit of estimated antidumping duties
on each entry of subject merchandise at the current all—others rate of 68.26
percent.

Interested parties requiring access to proprietary information in this new—
shipper review should submit applications for disclosure under administrative protective order in
accordance with 19 CFR 351.305 and
351.306.

This initiation and notice are published in accordance with section
751(a)(2)(B) of the Act and 19 CFR
351.214 and 351.221(c)(1)(i).

and the Gulf of Mexico stock of red
grouper will receive additional scientific scrutiny through a
supplemental SEDAR Review Workshop
and Evaluation Workshop.

DATES: The Evaluation Workshop will

Review Workshop will take place May
8 - 10, 2007. See SUPPLEMENTARY
INFORMATION for specific dates and

SUPPLEMENTARY INFORMATION: The Gulf
of Mexico, South Atlantic, and
Caribbean Fishery Management
Councils, in conjunction with NOAA
Fisheries and the Atlantic and Gulf
States Marine Fisheries Commissions
have implemented the SEDAR process,
a multi-step method for determining the
status of fish stocks in the Southeast
Region. SEDAR assessments are
developed through an open workshop
process that involves a variety of
participants. Participants for SEDAR
Workshops, appointed by the regional
Fishery Management Councils, the
Southeast Regional Office (SERO), and
the Southeast Fishery Science Center
(SEFSC), include data collectors and
database managers; stock assessment
scientists, biologists, and researchers;
constituency representatives including fishermen, environmentalists, and non-governmental organization (NGO’s); International experts; and staff of Councils, Commissions, and state and Federal agencies.

Assessments of Gulf of Mexico and South Atlantic stocks of gag grouper were developed through SEDAR 10, completed in July 2006. The assessment of Gulf of Mexico red grouper was developed through SEDAR 12, completed in February 2007. It is acknowledged that methods of assessing Southeastern fish stocks and addressing issues within available datasets improve with each SEDAR assessment, and recent assessment updates have allowed incorporation of such changes. There are similarities in the data sources used to develop SEDAR 10 and 12 assessments, potential similarities in basic species biology, and considerable overlap in fisheries that harvest these species within the respective Council areas of jurisdiction. Therefore, the Steering Committee has determined that a special review of these recent grouper assessments is required to ensure that uncertainties are treated appropriately and that any potential differences in methods or data treatments are thoroughly justified.

This special inquiry will be prepared through 2 SEDAR workshops: an evaluation workshop and review workshop. The evaluation workshop will consist of SEFSC and Council appointees familiar with the assessments and the fisheries which will be convened to review the assessments and possibly recommend additional sensitivity analyses. The Review Workshop will consist of an SEFSC appointed Chair, two independent reviewers appointed through the Center for Independent Experts (CIE), and up to two additional representatives appointed by the Gulf and South Atlantic Councils. The product of the Evaluation Workshop will be a report addressing key assessment uncertainties and recommending potential additional assessment analyses for consideration by the Review panel. The product of the Review Panel will be an independent evaluation of the recommendations and conclusions of the Evaluation Panel and any subsequent assessment analyses.

**SEDAR Grouper Review Schedule:**

**March 19 - 22, 2007: Grouper Evaluation Workshop**

March 19, 2007: 1 p.m. - 6 p.m.; March 20 - 21, 2007: 8 a.m. - 6 p.m.; March 22, 2007: 8 a.m. - 12 noon.

An appointed panel will review the SEDAR 10 assessments of Gulf of Mexico and South Atlantic gag grouper and the SEDAR 12 assessment of Gulf of Mexico red grouper. Participants will evaluate key data and methodological decisions and the justifications of those decisions as provided in the SEDAR 10 and 12 assessment reports. The panel will prepare a written report addressing Terms of Reference approved by the SEDAR Steering Committee.

May 8 - 10, 2007: SEDAR Grouper Review Workshop

May 8, 2007: 1 p.m. - 6 p.m.; May 9, 2007: 8 a.m. - 6 p.m.; May 10, 2007: 8 a.m. - 1 p.m.

The Review Workshop is an independent peer review of the recommendations of the Evaluation Panel and any subsequent analyses recommended by the Evaluation Panel. Workshop Panelists will review the SEDAR 10 and 12 assessments and the findings of the Evaluation Panel and document their comments and recommendations in a Consensus Summary Report.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.

Notice of the Removal of the Paper Search Collection of Registered Word-Only Marks From Trademark Search Library in Arlington, VA

**AGENCY:** United States Patent and Trademark Office, Commerce.

**ACTION:** Notice.

**SUMMARY:** The United States Patent and Trademark Office ("USPTO") hereby provides sixty (60) days notice of the microfilming and removal of the paper search collection of registered marks consisting only of words from the USPTO’s Trademark Search Facility in Arlington, VA. This Notice does not concern the paper search collection of registered marks that consist of or include design elements.

**DATES:** Removal of the paper search collection of registered word-only marks shall be effected beginning sixty (60) days from the date of this Notice.

**FOR FURTHER INFORMATION CONTACT:** Jennifer Chicoski, Office of the Commissioner for Trademarks, 571–272–8943.

**SUPPLEMENTARY INFORMATION:** Under 35 U.S.C. 41(i), the USPTO must maintain a collection of United States trademark applications and registrations for use by the public in paper, microform, or electronic form. The provision authorizing an electronic search collection was added by § 4804(d)(1) of the American Inventors Protection Act of 1999 ("AIPA"), Title IV, Subtitle B, of Pub. L. 106–113, 113 Stat. 1501, 1501A–589. The USPTO currently maintains a searchable electronic database of registered marks and marks in pending applications, as well as text and images of marks in abandoned, cancelled and expired records dating back to 1984. Government insignia protected by U.S. law or by Article 6ter of the Paris Convention, and insignia that various federally and state recognized Native American tribes have identified as their official tribal insignia are also included. Trademark examining attorneys have relied exclusively on the electronic search system since before 1990.

Section 4804(d)(2) of the AIPA provides that the USPTO can eliminate the paper or microform search collection only pursuant to notice and opportunity for public comment, and only after submitting a report to the Committees on the Judiciary of the Senate and the House of Representatives detailing its plan for removal, and certifying that the implementation of such plan will not negatively impact the public. On May 9, 2003, the USPTO certified to Congress that the USPTO could cease to maintain a paper search collection of marks that consist only of words, without harm to the public. The 2003 report and certification are currently available on the USPTO Web site at http://www.uspto.gov/web/offices/com/sol/comments/eplusearch/crtppap.pdf.
