

Title: Certification Summary Form, Reporting Summary Form for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428.

Abstract: These forms are to be used by district offices to summarize individual landholder (direct or indirect landowner or lessee) and farm operator certification and reporting forms as required by the RRA, 43 CFR part 426, and 43 CFR part 428. This information allows us to establish water user compliance with Federal reclamation law.

Changes to the RRA forms and the instructions to those forms. The changes

made to the current Form 7-21SUMM-C, Form 7-21SUMM-R, and the corresponding instructions clarify the completion instructions for these forms (for example, adding verbiage to clarify when requested acreages are to be provided on a westwide or district-specific basis). Other changes to the forms and the corresponding instructions are editorial in nature and are designed to assist the respondents by increasing their understanding of the forms, and clarifying the instructions for use when completing the forms. The

proposed revisions to the RRA forms will be effective in the 2008 water year.

Frequency: Annually.

Respondents: Contracting entities that are subject to the acreage limitation provisions of Federal reclamation law.

Estimated Total Number of Respondents: 225.

Estimated Number of Responses per Respondent: 1.25.

Estimated Total Number of Annual Responses: 281.
