Proposed Project: Application for the National Health Service Corps (NHSC) Clinician Retention Information: New Collection

The National Health Service Corps (NHSC) of the Bureau of Health Professions (BHP), HRSA, is committed to improving the health of the Nation’s underserved by uniting communities in need with caring health professionals and by supporting communities’ efforts to build better systems of care.

The NHSC is responsible for collecting data on its programs to ensure compliance with legislative mandates and to report to Congress and policymakers on program accomplishments. One of the most important statistics reported to Congress and policymakers is the retention rate of NHSC supported clinicians serving in an underserved area. The following information will be collected three months prior to the completion of obligated service: (1) Verification of current contact information; (2) if employment is to be continued at the same NHSC site; (3) if the clinician moved from the NHSC service site but plans to continue practicing in an underserved area, and (4) the primary reason for stopping practice in an underserved area, if applicable.

The estimated burden is as follows:

Type of report	Number of respondents	Responses per respondent	Hours per response	Total burden hours
NHSC Clinical Retention Information	1000	1	0.25	250

Send comments to Susan G. Queen, PhD, HRSA Reports Clearance Officer, Room 10–33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.
