

in this project as well as adjacent landowners and those responding to this NOI or to the Idaho Panhandle National Forests Quarterly Schedule of Proposed Actions. In addition, the public is encouraged to contact or visit with Forest Service officials during the analysis and prior to the decision. The Forest Service will continue to seek information, comments, and assistance from Federal, Tribal, State, and local agencies and other individuals or organizations that may be interested in or affected by the proposed actions. The United States Fish and Wildlife Service will be consulted concerning any effects to threatened and endangered species. The agency invites written comments and suggestions on this action, particularly in terms of identification of issues and alternative development.

Comments from the public and other agencies will be used in preparation of the Draft EIS to identify potential issues and concerns, potential alternatives to the proposed action and to promote communications with members of the public or other agencies. The draft environmental impact statement (DEIS) will be field with the Environmental Protection Agency (EPA) and made available for public review in the summer of 2007. The final environmental impact statement is expected to be completed in winter of 2008. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental review of the proposal so that it is meaningful and alerts and agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental statement stage but that are not raised until after completion of the final environmental statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986 and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and

respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues related to the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National environmental Policy Act at 40 CFR 1503.3 in addressing these points.

The Idaho Panhandle National Forests Supervisor is the Deciding Officer on this project. The decision will be made after considering comments and responses, environmental consequences discussed in the Final EIS, and applicable laws, regulations and policies. The decision and supporting reasons will be documented in a Record of Decision upon release of the Final EIS.
