Approval and Promulgation of Implementation Plans; Kansas; Interstate Transport of Pollution

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing a revision to the Kansas State Implementation Plan (SIP) for the purpose of approving the Kansas Department of Health and Environment's (KDHE) actions to address the "good neighbor" provisions of the Clean Air Act Section 110(a)(2)(D)(i). These provisions require each state to submit a SIP that prohibits emissions that adversely affect another state's air quality through interstate transport. KDHE has adequately addressed the four distinct elements related to the impact of interstate transport of air pollutants. These include prohibiting significant contribution to downwind nonattainment of the National Ambient Air Quality Standards (NAAQS),

interference with maintenance of the NAAQS, interference with plans in another state to prevent significant deterioration of air quality, and efforts of other states to protect visibility. The requirements for public notification were also met by KDHE.

DATES: Comments on this proposed action must be received in writing by April 9, 2007.

Fisheries off West Coast States; Highly Migratory Species Fishery; Amendment 1 to the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of an amendment to a fishery management plan; request for comments.

SUMMARY: NMFS announces that the Pacific Fishery Management Council

(Pacific Council) has submitted Amendment 1 to the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (HMS FMP) for review by the Secretary of Commerce. Amendment 1, in combination with the Western Pacific Fishery Management Council's (Western Pacific Council) proposed Amendment 14, address overfishing of bigeye tuna (*Thunnus obesus*) Pacific-wide as required under the Magnuson-Stevens Fishery Management Act (Magnuson-Stevens Act). The specific actions to end overfishing would be implemented by multilateral cooperation through appropriate regional fishery management organizations (RFMOs) - the Inter-American Tropical Tuna Commission (IATTC) in the Eastern Pacific Ocean (EPO) and the Western and Central Pacific Fisheries Commission (WCPFC) in the Western and Central Pacific Ocean (WCPO). Specifically, Amendment 1 would recommend that fishing mortality on Pacific bigeye in the EPO by longline vessels be reduced immediately by 30 percent and by purse seine fishing vessels by 38 percent from 2003-2004 fishing levels, and in the WCPO by longline and purse seine vessels by 20 percent from 2001-2003 levels for each gear type. Taken together, these proposed reductions in fishing mortality would end overfishing of Pacific bigeye tuna. Amendment 1 would also reorganize the West Coast HMS FMP to create a more user-friendly document as the current FMP is combined with a lengthy Final Environmental Impact Statement (FEIS).

DATES: Comments on Amendment 1 must be received by May 8, 2007.

ADDRESSES: You may submit comments on this action identified by [I.D. 0220807A], by any of the following methods:

- E-mail: 0648-AV24.SWR@noaa.gov. Include the I.D. number in the subject line of the message.
- Federal e-Rulemaking portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Mail: Rodney R. McInnis, Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802.
- Fax: (562)980-4047

Copies of Amendment 1 are available by contacting Donald O. McIsaac, Executive Director, Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 200, Portland, OR 97220-1384. Copies of Amendment 14 to the Pelagics FMP, and the Environmental Assessment (EA) for Amendment 14, which addresses

potential effects for actions proposed under both Amendments 1 and 14, may be obtained by contacting Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop St., Suite 1400, Honolulu, HI 96813.

FOR FURTHER INFORMATION CONTACT: Heidi Taylor, Sustainable Fisheries Division, NMFS, at 562-980-4039, or Christopher Dahl, Pacific Fishery Management Council, at 503-820-2280.

SUPPLEMENTARY INFORMATION: The HMS fishery in the Exclusive Economic Zone off the West Coast is managed under the HMS FMP, which was developed by the Pacific Council pursuant to the Magnuson-Stevens Act. The HMS FMP was approved by the Secretary of Commerce and implemented by regulation at 50 CFR part 660.

The Magnuson-Stevens Act requires each regional fishery management council to submit any amendment to an FMP to NMFS for review and approval, disapproval, or partial approval. The Magnuson-Stevens Act also requires that NMFS, upon receiving an amendment to an FMP, publish notification in the **Federal Register** that the amendment is available for public review and comment. NMFS will consider public comment received during the comment period in determining whether to approve, disapprove, or partially approve Amendment 1.

Amendment 1 to the HMS FMP was developed by the Pacific Council, in coordination with the development of Amendment 14 to the Western Pacific Council's Pelagics FMP. Both Amendments have been submitted to NMFS for review under the Magnuson-Stevens Act, 16 U.S.C. 1801 *et seq.* This document announces that Amendment 1 is available for public review and comment. A similar announcement for Amendment 14 was published on February 15, 2007, in the **Federal Register**.

On December 15, 2004, NMFS notified both Councils that overfishing was occurring on bigeye tuna Pacific-wide. As required by the Magnuson-Stevens Act, the Councils were requested to take appropriate action to end overfishing. The Pacific Council, having fisheries for bigeye tuna in the EPO only, and the Western Pacific Council, having fisheries in both the EPO and the WCPO, worked to develop an international strategy that addresses overfishing Pacific-wide.

According to the guidelines for National Standard 1 of the Magnuson-Stevens Act, fishery stock status is assessed to determine if the stock is
