John H. Hager,

Assistant Secretary for Special Education and Rehabilitative Services.

18-16-03

SYSTEM NAME:

Study of Former Vocational Rehabilitation Consumers' Post-Program Experiences (Post-Vocational Rehabilitation Experiences Study).

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATIONS:

- (1) Rehabilitation Services Administration, Office of Special Education and Rehabilitative Services, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, DC, 20202-2800.
- (2) Westat, 1650 Research Boulevard, Rockville, MD, 20850-3195.
- (3) InfoUse, 2560 Ninth Street, Suite 320, Berkeley, CA, 94710-2566.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains records on former vocational rehabilitation (VR)

consumers whose VR service cases were closed in fiscal year (FY) 2006 (as determined from the RSA-911 Case Service Report). The sample of former VR consumers includes those who achieved an employment outcome as well as those who did not at the time of case closure. Four subgroups of interest considered in the sample selection include transitioning youth and young adults under 22 years of age, consumers with mental retardation, consumers with psychiatric disabilities, and Supplemental Security Income and Social Security Disability Insurance beneficiaries.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains information on a sample of former VR consumers whose cases were closed in FY 2006. The system includes records from the RSA-911 Case Service Report containing employment data about the consumers, Social Security Administration data on receipt and amount of social security benefits, Unemployment Insurance wage records data, and information from baseline and follow-up surveys about post-VR experiences, particularly related to employment outcomes and post-closure services.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 14(a) of the Rehabilitation Act of 1973, as amended (29 U.S.C. 711(a)).

PURPOSE(S):

This system of records is maintained for program research and evaluation purposes. The Rehabilitation Services Administration commissioned this evaluation, which is also called the Post-Vocational Rehabilitation Experiences Study. The Department's contractor, Westat, is conducting the evaluation in collaboration with Westat's subcontractor, InfoUse.

The goal of this study is to examine the post-VR experiences of former VR consumers, considering their labor market progression, receipt of other services and resources from the community, non-economic outcomes, and receipt of Social Security Administration and other benefits. The study will further consider changes over time, the relationship between individual characteristics and outcomes, and how outcomes vary by specific subgroups of former consumers.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Department may disclose information contained in a record in this system of records under the routine uses listed in this system of records without the consent of the individual if

the disclosure is compatible with the purposes for which the record was collected. The Department may make these disclosures on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Computer Matching and Privacy Protection Act of 1988, under a computer matching agreement.

(1) *Freedom of Information Act (FOIA) Advice Disclosure.* The Department may disclose records to the U.S. Department of Justice and the Office of Management and Budget if the Department concludes that disclosure is desirable or necessary in determining whether particular records are required to be disclosed under the FOIA.

(2) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department shall require the contractor to maintain Privacy Act of 1974, as amended (Privacy Act) safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system.

(3) *Research Disclosure.* The Department may disclose records to a researcher if an appropriate official of the Department determines that the individual or organization to which the disclosure would be made is qualified to carry out specific research related to functions or purposes of this system of records. The official may disclose records from this system of records to that researcher solely for the purpose of carrying out that research related to the functions or purposes of this system of records. The researcher shall be required to maintain Privacy Act safeguards with respect to the disclosed records.

(4) *Disclosure to Other Federal Agencies, Including the Social Security Administration and the Department of Veterans Affairs.* The Department may disclose records to other Federal agencies, including the Social Security Administration and the Department of Veterans Affairs, for program research and evaluation purposes.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Not applicable to this system notice.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department maintains records on CD-ROM, and the contractor and

subcontractor maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed by a number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the sites of the Department's contractor and subcontractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need to know" basis and controls individual users' ability to access and alter records within the system. The contractor, Westat, and its subcontractor, InfoUse, have established similar sets of procedures at their sites to ensure confidentiality of data. Their systems ensure that information identifying individuals is in files physically separated from other research data. They will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. At each site, all data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the Westat or InfoUse system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators establish for projects as needed.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules, Part 3, Items 2b, 4a, and 5a.

SYSTEM MANAGER AND ADDRESS:

Joe Pepin, Unit Leader, Data Collection and Analysis Unit, Rehabilitation Services Administration, Office of Special Education and Rehabilitative Services, U.S. Department of Education, 400 Maryland Avenue, SW., room 5057, Potomac Center Plaza, Washington, DC 20202-2800.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the system manager. Your request for information must meet the requirements of the regulations in 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURES:

If you wish to gain access to your record in the system of records, contact the system manager. Your request must meet the requirements of the regulations in 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURES:

RECORD SOURCE CATEGORIES:

This system consists of information about former VR consumers and includes information taken directly from former consumers. It also includes data taken from the RSA-911 Case Service Report of former consumers, Social Security Administration records, Unemployment Insurance wage records data, and baseline and follow-up surveys about post-VR experiences, particularly related to employment outcomes and post-closure services.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.
