[I.D. 030807C]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Research Steering Committee (Committee) in March, 2007, to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will be held on Thursday, March 29, 2007, at 9:30 a.m.

ADDRESSES: The meeting will be held at the Radisson Hotel, 180 Water Street, Plymouth, MA 02360; telephone: (508) 747-4900; fax: (508) 747-8937.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION: The Committee will review several final cooperative research project reports and develop management advice for use by the Council; provide a list of 2007

research priorities for Council consideration and address the Northeast Fisheries Science Center's report on the impacts of fishing on groundfish spawning activities and related follow-up activities concerning the Northeast Region's Experimental Fishing Permit Program.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 9, 2007.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 030807A]

Endangered Species; File No. 1486

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit modification.

SUMMARY: Notice is hereby given that Harold M. Brundage, Environmental Research and Consulting, Inc., has been issued a modification to scientific research Permit No. 1486.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room

13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978)281-9300; fax (978)281-9394.

FOR FURTHER INFORMATION CONTACT: Brandy Hutnak or Malcolm Mohead, (301)713-2289.

SUPPLEMENTARY INFORMATION: On January 16, 2007, notice was published in the **Federal Register** (72 FR 1707) that a modification of Permit No. 1486, issued December 22, 2004 (69 FR 30287), had been requested by the above-named individual. The requested modification has been granted under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The modification authorizes Mr. Brundage to take 1,000 shortnose sturgeon (*Acipenser brevirostrum*) early life stages (eggs and larvae) from the Delaware River System. Eggs will be collected using artificial substrates and larvae will be captured by passive ichthyoplankton nets, an epibenthic sled, and pump sampling. This research will help document spawning occurrence and location, as well as identify possible critical habitat or critical areas for shortnose sturgeon spawning and nursery.

Issuance of this modification, as required by the ESA was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: March 8, 2007.

Tammy C. Adams,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
